

Sorry Trump fans,

As a military veteran I always support our President. Even Clinton - I did not like their methods or Democrat party line - harmful to American values.

Anyway, I was giving President Trump the benefit of the doubt... I like the brash, against the grain, in your face, pro America stance.

BUT! Holy crap!!!! I watched the entire Helsinki press brief. What humiliation! I felt so ashamed that this is our President that our military is risking their lives as the "best of our leadership"?

There should have been a dog collar around his neck with piss ant thug putinski (KGB - aka enemy of mine and the USA) holding the leash!

President Trump was cowering before this punk! Not about "words" - everything in his manner, body language and speech showed he was cowed before putinska.

Offering Russia access to our investigation! Sorry folks, that is treason in my book! Russia is NOT our friend. Get your gun oil ready...I expect our allies will turn away from us and Russia will suddenly send troops into Poland to "free" the Russian speaking Polish citizens.

God help us!

My 2 cents worth. A view from behind bars. Many of us care and pay attention, and have a voice, and one day will vote again.

David
