

Border Security

(7-20-2018, 1404L) I'm all for border security for America and proper, legal immigration. Saying that - I am very proud that our citizens, the media and congress are protesting and demanding we STOP the separation of children from parents. It is an outrage that we are pushing our fine, professional ICE and CBP Officers to become American Gestapo! Shame on us! I can only imagine the terror felt by the families being ripped apart. There will be some cases that for a child's protection they must be isolated, but that does not justify this level of cruelty.

*

My experience of seeing American prison from the inside is an eye opener to how slippery the slope is from justice and rehabilitation to greed and self destruction of our US Constitution.

*

The fact that we can protest and demand correction of OUR government, the people that work for US is an encouragement to me that there is hope for our nation. God is watching and "justice" is one of the highest expectations and responsibilities we have to our nation and the world.
