"Searching"

→OVER→

What we share started out so small,
What we share now stands so tall,

Our story has never been told,

Picture the scene as our story unfolds.

Two lonely heart's were searching for shelter,

So two lonely heart's started searching together.

Searching all high and low beams,

We've searched the whole world it seems.

Looking for that which is sometime's hidden and then exposed only a few get
lucky to find white gold.

Standing beside me, I feel your chemistry,

Why we still searching remain's a mystery?

But step by step we keep our pace, will we know true love if it was staring us
in the face.

Reaching for something but grabbing nothing but thin air,

Realizing that it is already with us,

And has always been there.

Needing fulfillment is the same with you and me,

And this is not another hopeless-romantic fantasy,

You are my lady and I'm your man,

Allow me to give you the reality of your silent dream.

Something's in life are hard to find,

But I've found that something in you,

Something that is very divine.

Through all the sweat and tears,

You've given me in a short time,

What I've search for-for year's and year's.

No other can come my way and pull wool over my eye's,

I've already got you and with you my hands are full...
