"Cherish The Moment"

What we share, is bigger than this world, true love shared between boy and girl.

Inspired exclusively from the heavens above, which makes it full grown, it is not puppy love.

Tell me your secret's and I'll tell you mine, put new meaning in what is called quality time.

I'm thinking of you, even while in the presence of another, waiting for the moment to kiss again, when were in the presence of each other, even when you make me angry, I find a way to smile, knowing that you mean me no harm, it just comes with your sexy style.

All our past worry's are now visions blurred, for ours is written in stone, as places secured.

You are my precious imperess of austria, therefore I cater to you, your value exceeds the sapphire, so it's nothing I want do for you.

You're the best I've ever had.

Not even a shadow of you've come across my radar.

Whenever I'm talking or walking with you, time stands still; caught up in admiration of your beauty and sex appeal.

A gentie touch from your fingers is a touch that lingers from January to December that touching will forever be remembered.

Like the colorful rings that boarder the planet saturn, your life gives my life that kind of pattern.

So from me to you just so you'll know my commitment to you forever is what I owe...
