Hello Kenneth, I am good. Yes we did lose contact. I understand issue do come. I just over came having cysts in my uterus, and other health issue myself. Understand about taking of your family that what you suppose to do. Tell your son I am proud of him. All three of my children are doing great. The two boys are working and had a family. My daughter is teaching PreK. Has a fiancee and graduated with her Bachelor degree December still in school at the University. You know all would be great if somebody would help me. When you seen my request for help retaining a lawyer concerning my case, why didn't you send it out as flyer to other people such as mail, yahoo and Facebook etc. It would have cost you not one dime. So many people have sympathy for my situation. But how many is willing to help, especially our African Americans. They have been the most judgemental people I ever encountered. The flyer wouldn't have been attached to your name. It would had all my information all you would have been is the mail carrier by placing it in the people's E-mail box. Somebody placed it in your box. That was God. My case was heard August 06, 2018. I am currently waiting on a reply from the courts. A girl went home that I need from my home town. Suppose to be help me attach my blog to different websites. I really need that media coverage so I can get the help I need. Our president and the Republican is going down. The boat is going to crash. I hope every Democrat running for office. Gets into the ~~oil~~ chair. ~~Next~~ Republican wants to take everything from the people. But the Democrats try to help the people and get them involve the correct way. I love Democrats I am forgiving person. If I want forgiveness. I have to forgive.

Sincerely Jennifer Johnson
