

(Mystery Woman)

With eyes light bright,
They hypnotize my soul.
A smile so beautiful,
My heart unfolds.
Stride of a walk that mesmerize,
As your hips sway side to side.
That's your outer beauty,
I'm ready to enter inside.
Your mind seems willing,
But close at the same time.
The question I continue to ask,
Is it possible your mind is connected to mine?
Wisdom your open to,
So knowledge and smarts is fully you.
How far does this go?
And where to?
Don't be afraid to appear,
It's just me and you.
On looker's my look and hate,
But they'll just speculate.
Cause my mystery woman bares no face,
cause she's in every place.
You're the treasure,
This mystery I'm gonna find.
But until then my love,
Out of sight, Out of mind.
