

I just don't understand  
Help me to understand.

It's time to catch a mouse by the ~~tail~~ tail. It's time to catch the mouse and kill it. Prison or jail suppose to be a place where you basically get your mind right. Not continue criminal behavior or irresponsibilities. The atmosphere of the prison was rehabilitation. It's not a time to act like you on the streets wilding out. That was 1998 up until 2006. Some after that the inmates begin to come to prison living like they are Hotel Le. Their getting high off other people pills. Mixing coffee, ~~and~~ Cosblade and ~~or~~ mental health pills or any type of pills that they know is going to cause them be high. Some of the inmates stay high but when they drug test they don't show up positive for marijuana, crack or meth. Their needs to be a drug test where the inmate can ~~be~~ be tested to see what other drugs in their system that they don't suppose to be taking. Girlfriends get to live together have sex anytime they want to. It's a lot of confusion going on with that. Prison has ~~been~~ become a ~~tax~~ relax place for even the short time offenders. Majority of the inmates don't get out of their beds till 8am count time. A lot of them don't report out to their details. ~~There~~ A lot of the inmates are lazy. They have too many young people that are down orderlies they do "it clean. Unless the officer makes them. I feel

All the younger ~~poor~~ people. Some of the older ones who feel they can pay somebody to do their detail. Should be put in a kitchen or the hardest detail in the prison. If they refuse then look down. When I say older ones, some of them are 50 years old bodily able but lazy. The people who don't work in the dorm. All they do is play cards all day, setting around plotting against the staff and other inmates. The inmates that are like this come to prison to be comfortable. When they was on the streets majority of them walking early in the morning looking for drugs to use or sell them or out somewhere prostituting or robbing etc. They was thinking about work or its too early to get up. They was out there. I tell them that. They get offended and will run to the Cent team or staff on you because they feel they should be able to do what they want to no matter how it affect their bunkmates, the next inmate or staff. So the era of the prison today alot of inmate think they are at Hotel 6 and Days Inn. Bump who they step on to get what they want. Georgia Female Institutions.
