Thor's 9/27. Approached Batman at break-fast to re-assure no problem with job-change. C revealed signatures on form caused conflict. It wasn't Non-E Memo - which may in fact be my only saving grace ... whereas "Down Low Secrecy" may have suggested complicity. Once again, my ethics-in permitted me to withstand the confusion of another's 'good intentions'. Never the less, Non E to Liability Cond. prompted responsibility to confront Alter-Isness, and renew job application to Batman. We'll see what happens now. Also handled Sissy about being other determined by merchants. I wont labor for kitchen crumbs and encourage black market! Yes, controlling change is ... turbulent ... isn't it? For the sport of it, and/or to graduate gradient of Ability. Night yard alert - re job change ordeal, with humor at waves of chaos testing aptitude. Hour chat with CR re. Ext. Crs. Integrity of ethics raised - Ack-ed. Quiz him on Dynamics. Much time & effort spent presenting alternative comparisons for him to consider.

Frig's 9/28, Visibility in Liability Cond. politicking with Sharky after I pummeled the Big (boxing) Bag - as public demo. "I dont watch Big Brother on TV, and Im not invested in PAC's, so Im well aware the sinecure post has its dangers", I said; "but the Parole Board impact is priceless!" Afterward, as a mockery of invalid-ation, I put on a training bra and pummeled the stuffing outta the Big Bag for the next 1/2 hour. LOOK AT ME! PAC dangers notice dangers too. Boo! Gave Cond. below Non E to Matty. Color Celtic Dragon as Aesthetic Meditation. Then rec'd rag-art to fix from Kenny. A Viking Ship project - I can roger that signal.

Sat 9/29, CBS This Morning News special on NFL Players Coalition for Social Justice. Wow! Only 2000 NFL Players, pooling their influence to raise interest via STATISTICS in the Social Issues. About damn time! Later, walking carelessly by myself as always the word smith troubadour who promised to write my song earlier this year, dared reveal his perception of my "Crazy Act" dis-ease, exposing my dis-ability. Im a god-damned reflection of this environment you fuckin idiot! get yer song right. Its remarkable to note, Party Animals next door continues to keep their music down. Its appearing to me that the privileged Pooch-Party on Dog-Row here, are being given the opportunity to fall prey to vice-squad neighbors. They're so beautifully Stupid. Last night Kenny provided Viking Ship rag for me to fix-up, and today in the day-room, Jeff gave me brand new 24pc Pastels and a pad of Pastel Paper, requesting I do something with enchanting Fairies and mushrooms for him - and also a copy of the religious icon of the Reaper from Revelations. I dont need a word-smith to sing my song! Circumstances in my life sing my song. Universal Power honors Postulants ... once Force is relinquished. For instance, Valhall is thatched with spears and shields and armour lies on the benches, you see?

9/29 (cont.)

Building staff asked me to explain recent ordeal with sinecure post - then offered me a job in the building as a Porter, responsible to maintain a locker of table GAMES 😊 LOL A stock keeper - me? And I get to stay inside all the time? No thank you. I'm a landscaper - a cultivator. Requested time with Matty - neither of our dayroom time - for my Scientology game. Granted 45 min. at table. Retrieved TPaw and discussed Conditions below Non E I had him read out of SPEAKING FROM EXPERIENCE (see attached). Then went through Introduction of Scientology Ethics to help him consider Formulas to apply in the changes he sez he desires. Repeated Cog's. Return to cell - as agreed - just before shift-change. Surprisingly - Matt duplicates Integrity: "want to get on phone, but ... honoring agreement". That's two improvements of Ethics I've been blessed to see - where non-existent before. Elron smiles, I'm sure. All hail LRH!

Sin 30 Reflections: Psych referral (last month?) refusing Hep C treatment. ER flunk bullbating intitlement issue. Kill Kite reality check. Clerk fiasco. Field trip Surgery. All this randomness to key-in dormant issues. Of all the events, only one found a humorous satisfaction that the emasculating victim-ology has reached to the very top of Judicial Estate (Kavanaugh rape allegation) with apparent impunity ... which naturally encourages others to allege - character assassinations. ? Doesn't anyone else see the Fifth Column Coup d'etat by the Psych Industry? Doesn't anyone else remember the Salem Witch Hunt? Who profits from hysteria? Those who "rule (as) God" - in the Media and Legislators! I wonder what the word Mordecai means in relation to ZOG. Merchants of Chaos are easy enough to spot ... but then there's a corresponding responsibility; which prefers Stupidity, isn't there? (w/ INTELLIGENCE GAIN)

We all get what we deserve, dont we. Imagine reaping next life what you sown this life. Your Tax Dollar Karma - compared to mine - makes me certain we'll live in entirely different worlds. In mine, FREEDOM OF EXPRESSION is and will always be the standard.

L. RON HUBBARD

Mr. Hubbard was a man of amazing accomplishment. Millions have read his best selling book DIANETICS, The Modern Science of Mental Health. Others know him through his drug rehabilitation programs, his educational breakthroughs and much, much more.

The research that he completed and the organizational technology that he established all have something in common; they each help people improve conditions in some aspect of life.

This book contains portions of the management and administrative technology of L. Ron Hubbard. It provides the most effective information available to any student, business person or executive.

Whether your company or business is large or small, you will find that through the use of L. Ron Hubbard's technology, tremendous expansion can be attained and sustained. Goals can be achieved. You will have within your grasp the tools of limitless success.

Mr. Hubbard's management and administrative technology are clearly described within these pages. All you have to do is use it.

SPEAKING FROM EXPERIENCE

Speaking From Experience will dramatically increase anyone's basic understanding of groups and how they work. While this is primarily a book on management, it will broaden one's perspective in numerous ways.

The principles contained in this book are based on extensive research into the subjects of management, organizations, people and their work. It outlines certain laws of management which are uniform and unchanging in any group endeavor.

This material is currently being used in many highly successful corporations around the world.

This book is quite different from other books on management in that each page covers a single concept, presented in an illustrated fashion. This helps the reader to cut quickly through the words and directly into the conceptual understanding of the subject matter.

But don't let yourself be fooled by its apparent simplicity. When simplicity and truth are combined, the results are very powerful.
