What do you do when you
don't know what to do?

Star Spangled Banner: The two final validated sentences in that song:

For the Land of the free
and the Home of the Braves

Is America really free?

Yes our soldiers was brave enough to fight for our country. But are they really free? Ask yourself that question. Especially the ones who is back the President and others who is blackballing the NFL or anyone who want to protest during the games. or any where else they choose to. WE CANNOT KEEP ~~do~~ Doing THE SAME THING. EXPECT different results America, United Nation and Continent. We ~~are~~ ^{ARE} going look at some problematic areas.

I. Religion

We have a right to freedom of religion. To believe what we want to. But there is no freedom in sexual and physical abuse in religion. There is no ~~freedom~~ freedom in Brainwashing others in religion. Even in the ones who believe in a religion that hurts people.

The Catholic Sexual Scandal and Brainwashing is no surprise to me. For a long decades the coverup has been in the Christian churches and Catholic. There is a lot of things that goes on in the ministries that is a hush, hush situations. My take on the Catholic sex scandal. It should be treated as murder no statute of limitation under criminal. Because sex crimes is getting worse as murder. Some people has gotten away with sex crimes for decades. Continuously to commit the same offenses in secret on other children or ~~other~~ adults. So the freedom crimes under criminal. People who does things like this is a sick individual needs to be put in a mental hospital or prison.

2. Military

Uncle Sam don't care about you. My uncle is a Veteran of the Army. He was expose to Asian Orange in Vietnam. Has a lot of health issues. My uncle has been fighting for his 100% benefit for 35 years. Now ~~he~~ he is 78 years old. For the Land of the free and the home of the Braves. The suicidal rate is up. When it comes to military soldiers their not getting help like their suppose to. Homeless Veteran, disability, (mental health is a major issue)

Freedom to live in your community peacefully without being robbed, killed or judged the wrong way. Freedom to walk or jog in the park without anything bad happening to you. Freedom to be around who you want to not be judge or labeled falsely.

Injustice in health care. leaving our elderly suffering to meet ends, struggling on social security, food stamps medicat, social security barely having enough to live off of. Disabled people suffering in paying medical bills living so expensive, most people just barely have enough to meet ends, becoming homeless because of lost of jobs.

Denial of freedom of speech and to express yourself. But our president can say what ever he wants to, do what ever he wants without a repercussion or anybody holding him accountable. Defamation of Character by our president (calling women dogs, calling NFL players names for kneeling during national anthem, taking people security clearance for the telling the truth on him. Truly we are living in a yes Sir master world. Where is the freedom?

Injustice with the Police, Sheriff, judges District Attorney and Department of family / children service Denial of Due Process to the ~~poor~~ people that's in poverty in the courts. you can't live in peace without being in jeopardy of dying at the hands of a Police officer. ~~the~~ Radical white supremacist. The Whites have take over just like the slavery days. The whites is running the government. A lot of these small counties in Georgia and other. Are ran by all whites Police Sheriff, judges and district attorney or nearly just about all whites. The Police or Sheriff Department might have one, two or three of another race throw in their Department to make it seems diverse and not prejudice against blacks or other races. But they are use as the do boys and girl. you do what I say ~~meaning~~ meaning they do their dirty work. This is a yes Sir Master world. I believe the song said Gave ~~proof~~ proof through the night our flag was still their. you see the flag is still their but what about the moral value of the flag is it still their. Is ~~the~~ ^{the} moral value of our Constitution is still here. The value of freedom and justice is not respect in America. Is to say the NFL players are wrong for kneeling for injustice of ~~the~~ unarmed blacks being killed by the police is wrong. Nobody thought about the words in the song. Do we need to change the song absolutely not. But we need to change our mind about how we think as American. Prime example I can have a

two dollar bill. I ball it up and throw it in the trash. The two dollar bill didn't lose its value. As a matter of fact somebody got it out of the trash. Used it. What was wrong with the whole situation about the two dollar bill somebody has trashed it and tried to make it no value. You see what is wrong with American, the national anthem and Constitutional rights. The problem is not the kneeling at the NFL games. Everytime a person rights is being violated we ourselves is devaluing and throwing away the ~~national anthem~~ ^{flag} and constitutional rights so Mr Trump and others when we want to blackball somebody for kneeling or protesting. Think about the value of our national anthem ^{words} and Constitutional rights.
