Subject: True Safety

"For those who enter God's rest..." my meditation on Psalm 34 & 35 have concluded and I thank all of the Saints who have prayed with me in this time of danger. Once again, our God, our Savior, our Lord Jesus (Yeshua Ha Meshiach) has shown me that He is involved in even the smallest matters of our daily experiences. And the answer to knowing His rest is in knowing His Love, which is behind every act. I still have so much to learn.

*

So, the individual who attempted my harm? He was found out, and lost his job when caught in another criminal act. I am not gloating. It is simply justice, and protects our group (GrahamVets) from future harm caused by this individual. He is no longer in a position where he communicates or moves product for the gangs. I see it as God's intervention as I spoke no ill and took no action against this man - only prayer for protection and vindication. His efforts to maintain a criminal, prison norm, gang supported ring for criminal purpose has ended! I hope in time he might learn from his fellow veterans that Honor and Integrity are the better things to focus his energy on.

*

My hope and confidence in our groups direction is renewed. Now I hope IDOC will take the next, needed step, of assigning a paid staffer to complete GrahamVets "Program" status. This will enable classes, VA support and Earned Time contracts. It will also plug up any gaps where future efforts of new arrivals who have gang connections and motives might try this again.

Thank you again for praying with me. While I will remain vigilant, I do have "His rest" and I am safe. David.
