

Subject: Yale University

(11-5-2018). Hello world,

Today is election day and they have us on lock-down. I am sure it is a plan that the Union enacted. From what I hear spoken, there is no freedom of choice. The Unions and State workers HATE Gov. Rauner. All the Union members have been "told" how to vote. The only good thing I see, is that behind the curtain or in the booth, an American can vote anyway their heart compels them. It will be a big factor for me and our vet program going into 2019. Will the next administration continue to support and develop programs focused on rehabilitation and earning sentence reduction? Reducing prison overcrowding by implementing treatment, mental health and training programs in lieu of mass incarceration? It is proven to save money and protect communities and strengthen families in the long term.

*

Yale University has a group called, "YALE LAW SCHOOL - VETERANS LEGAL SERVICES CLINIC"

Does anyone have any contact info for this group or others like it that might help us to obtain access to Vet Courts and VA Healthcare? please send it to me.
