Hi Nicki,

11.11.18

Nice to meet you too. The other side of the globe, you say? Very intriguing! Why in the world you'd take up your "free time" on media sites, is a mystery.

I don't mean to feed your orgiastic need To Be fascinated by media's confusion, so be warned: I intend to break this enchanting thralldom by exposing the demagogues ploy.

Duplication retards Creative Imagination, you see? Demagogues produce points of view which capture your attention one way or the other - and then there you are: enthralled! And consequently, disabled as the Effect of overwhelming problems in the world you have no control of. Merchants of F.E.A.R. (False Evidence Appearing Real) produce the chaos which our inherent Creative Imagination has a predilection to Solve, you see?

The "problems" are real enough. Political points of view create them as job security. Overwhelming and disabling stupid goyim has been zeitgeist since... well, since diaspora managed to spread Jacob's supplanting dis-ease! Politics is an extortion racket, supplanting our Creativity and Responsibility in our zone of influence. Pay your taxes and have professionals handle everything, they posit: No need to Think - just obey. Alas, the talking-head demagogues play a vital role with overwhelming the Will To Be Responsible, in our zones of influence. Hence that games name is Slavery, as I see it. No Responsibility, other than obey.

What do you Do with your time when it's not free? What is your occupation (pun intended), I wonder? Grape juice and crackers is most likely the motivation there as well, I'd say. Panem et circenses, in latin means: bread and circuses: provision of the means of life and recreation by government to appease discontent.

And so goes the opiate of the masses, as well. Subjugating the Will To Be Responsible in our zone of influence. Supernatural Constraint is what the word religion derives from. It's been called the Opiate of the masses, because the definition of opiate is: something that induces sleep or quiets uneasiness/causing dullness or inaction. It is the very antithesis of our potential as Creators, and therein is created another overwhelming problem: Slavery vs. Heresy.

"The motivations for choosing this tribe", as you say; whatever the sect - is much the same motivation as other occupations provide. Most of our parents, and other authority figures, taught us to Obey, instead of Think. What exactly is the definition of Fascinate, any way?

Do you have commuter traffic jams on your side of the globe too? Why people choose that tribe confounds me more than anything. Always has.
