

My Alma Mater: Folsom Prison @ Repeasa, Califelony

Listening to Johnny Cash - Momma Tried, I wonder if I Have - and if I Do - ever make my Momma proud? Then I ask:

**WHAT IF ALL CREATORS REMEMBERed?**

Creative Thought is contagious!

BE the victim of innovation, or BE Responsible!

W/c RESPONSIBILITY, 1. the ability and willingness to assume the status of full source and cause for all efforts and counter-efforts. 2. when one speaks of responsibility he means "the determination of the cause which produced the effect". 3. full responsibility is not fault; it is recognition of being cause. 4. willingness to make or unmake barriers. 5. the feeling that one can operate something. 6. the area or sphere of influence the individual can rationally effect around other people, life, and the general environment. 7. admission of control of space, energy, and objects. 8. it is willingness to own or act or be. 9. the concept of being able to care for, to reach or to be. 10. "admit causing", "able to withhold".

## NO SINNERS LEFT BEHIND

We Americans must act now. Our collective fates depend upon it. We need to provide a way for our most "ethically challenged" citizens to "rest in peace". Our people deserve salvation - with the least possible inconvenience.

Give me 6 minutes of your time and a generous donation to my nonprofit and your afterlife can be insured.

There is a bill before congress regarding the establishment of the National Salvation Institute. The NSI will provide the tax money for the necessary research needed to find a cure for Damnation and achieve Salvation for all. We must build a wall, figuratively of course, between American Citizens and Dantes Inferno.

Beliefs have changed. People have changed. Religion must change. We need a philosophy that takes into consideration the opportunities and the temptations of the modern age. We need to acknowledge a belief system that reflects the morals of the times.

It's not the 1950s. Those who can keep in the ten commandments, and follow the Golden Rule are an elitist few. Society has to recognize sin for what it actually is --it is not our fault, it cannot be helped because - Sin is a disease.

We can fight this disease the way we have fought other DISEASES: Make the government do it. I can tell you that Big Brother is all over this. If you can't trust your soul to the government, who can you trust it to.

Congress is bound to approve the NSI. Just as old congressmen with sick bodies can be counted on to vote millions of dollars for medical research; old and young congressmen with troubled consciences can be persuaded to support salvation research.

Are we, the most technologically advanced nation the world has ever seen, going to sit back and allow our morally bankrupt citizens be eternally damned! I think not. Our president will go down in history by declaring War on Hell.

My non-profit, American Salvation Society, is collecting donations. Tax dollars are never enough. No sinners left behind means that any preexisting ethic-violations or sins are forgiven automatically.

How can that be done? Extensive and expensive drug research paid for by the NSI and ASS in order to develop a serum to vaccinate everyone against damnation. Eli Lilly will save us.

There will be people, the elite few, who will not want to go along with this plan. They will cling to old fashioned methods of salvation such as preaching, praying and confessions. Not one penny of government funds will go to them.

An educational campaign is underway. Anyone who doesn't catch on will be labeled as having an SDD condition -- Salvation Deficit Disorder. Government funds will be set aside for their special remedial religious education.

I need your help to form up local chapters of the American Salvation Society. We must canvas our neighborhoods for donations. After-Life insurance for all means all must pay. So give generously and make others give too--give until it hurts to the ASS.

I can see that you are anxious to do your part in this salvation project. Well you can start - send your check in before you check out, to the American Salvation Society.  
Thank-you
