Dear Heather73,

hi, I responded to your comments a few weeks ago I think it was but still no response.

If you get this, send me an email at: robertpezzeca@gmail.com

You can send an email to my sister Jen at the same email and she will explain to you how to sign up to email me and she can give you the mailing address as well. I am in Pennsylvania but all mail goes to Florida now since 1% of inmates smuggles in drugs and staff lied about getting sick from drugs in the mail. We inmates are made to suffer for 1% of the drug smuggling inmates but staff who were caught lying about getting sick, nothing happened to them. But more importantly, I am reaching out to you and I hope to hear from you soon. I am certainly interested in hearing how long you have been cancer free, as you know AML killed my mom last year. Life will never be the same without my mom. Take care and please send me an email at my gmail and ask my sister Jen how to sign up to email at connectnetwork.com Take care and I look forward to hearing from you. Ciao.

PS. Snail mail

Rob
