# RANT TO RAVE

How did I get here. I mean at this place. Confine... in these concentration camps. How is it that this government allow these places to exists where the Rachel, Brittany, Sherry, Tracy, Ashley, Eric, Connie, Gerodan Thomas, Glyn etc abide. conducting torture tactics... stripping unaware living being of their natural ability, intent of all kind. I've collapse. less conscious... so many times, death and dying is common to me; as well sickles is to the American society.

The thing is... I've never met Fleck.

I've never seen Game of Thrones, I never Amazon, YAHOO! Twitter, Face Book (although I'm on Face Book. And I can't get responses off it.) It's because the people above.

Their is a lot of things is common to. they're all horrible...

Being stab, cut, sexually harass, poison, Consuming contaminated food, Breathing toxic air, drinking toxic water, living in condemned toxic environment, daily, weekly or etcetera. It's common for me to be amongst fucking liar, murderers, Rapist, monsters... Yeah... they maybe prisoners who do the above.

And still will. But the worse are the correctional officials don't offer any law enforcement officials. I swear on my life... if I didn't have to rely on them... & wouldn't ask them for shit.

It's uncommon to meet Government official that is sent out to ~~kill~~ kill me, Debase me or Steal away my abilities and identity.

It's common for me to see an attractive female who's manipulative, deceptive, condescending, antagonistic, etc.

It's common for me to see an unattractive female who's all of the above.

It's common for me to see that I play this game. my moves... must be the right moves, to stay alive, in harm.

But I can't manage to stay uninjured.

It's uncommon for me to search the internet or the worldwide web.

It's uncommon for me to wear shoes that don't destroy my arch.

It's common although; for me to battle with nothing against these monster above to prevent them from destroying the arch in my feet, so they can have beautiful feet, etc.

It's uncommon for me to receive letters, etc in the mail.

It's uncommon for me to receive letters, etc in the mail un seal and open. It's such a problem cos(s) like Danny Rivera take the letters home to read them or read them conveniently before I receive them. And it's not because people will write me. It's because the monster above interferring in the mail process.

It's uncommon for me to expect justice from all of the above fairness, equality, due process impartiality within the judicial system.

It's common for me to expect encounterment from all of the above.

But it's uncommon for me to experience the plenantry.

It's common for me to receive death care treatment (as so many

citizen on this planet) that's life saving.

No -> I'm not a scientist. But you think  
I would learn something from watching all the  
move on volcano, Nat-Geo, the nature channel and

LOG I.D. NUMBER/NUM. DE REGISTRO

18667148

That little incident that occur with  
Mt Saint Helen in the 80's.  
Our year... Hawaii still have  
the volcano's. You think someone would want to come  
and check them out, Right?

Date Due 12/7/18

**I WANT TO GRIEVE / QUIERO QUEJarme DE:** I was place in (priority) B207 about 10-17-18. The cell is inhabitable. A gas enter into the cell so powerful it restrict my breathing. Strip the air out of the cell. The water is not drinking. The entire back wall panel is structurally unsound. The window cell is completely damaged. The side and top area have several cracks that is covered with rusted, corrosion, and crystallization, sulfur acid, spoor. The paint and wall material had chemical burn from the gas that's comprised with the rest of the element thus make the cell a death trap. On 11-1-18 I spoke with Sgt. Degentize and he respond that he will not move me but put in a work order. I wake up thinking I'm going to die.

**SUGGESTED REMEDY / REMEDIO SUGERIDO:** I am requesting an cell move to the top floor tier 3 where

Want to move You see how he didn't The seriousness of the issue Bitter wrong The words. Holes, Cosmetic, And he inspected the cell.	11/21/18

PART B - LEVEL I RESPONSE / PARTE B RESPUESTA PRIMER NIVEL

I discussed this issue with you when we met in the dayroom on 11/28/18. I inspected your cell that night and took pictures of the inside of the cell. I reviewed the inside of your cell again on 12/3/18 with CMHUS Deshev when maintenance was replacing the light tubes in your cell.

The walls and windows were found to be structurally sound. The rust stains by the window was found to be only cosmetic and there is no smell to indicate sulfer acid being present. The rust stains are caused because the paint has been chipped away exposing a very small portion of the metal window framing. The condensation from the use of the shower inside the cell has been known to cause the rust for a number of years. There were no holes in the walls found letting air come into the cell. Mr. Deshev agrees that due to the issues in your cell only being cosmetic, there is no need to move you to another cell at this time.

Want to move How can Rust Corrosion Crystallization, mo Id T.G fungus and cracks in the wall that allows rain water to drip into the cell.	12/3/18

# RANT TO RAVE

I have an question of law that ~~if~~ address by the superior court family. I would be out of prison within 3 to 6 months. But it's the mere initiation of 1 component. It's common for me to be provide with an inadequate access to the court. It's common for me to not have any family support to assist me in this avenue. And it's uncommon for me to have family support that will assist me in such an adventure. with all my commons... or how do I relate to... A being who out of Rhyme and Reason compose a strike, etc. Your support is appreciated. Your physical Relation is needed for it will allow me to obtain my release and be on the streets 6 months ~~FROM~~ our interaction... And an lunch or dinner with you. The only words I have in my so weak and barely alive mind for you is; THANK YOU... FOR YOUR SUPPORT. I PRAY you don't stop. when I lay down and rest, I'll remember... or try (very hard) to remember not to drop my flashlight, when rolling over or moving around on this bunk... so they don't get anything from me that they can use. This is my last envelope. I don't know if I'll be able to get anymore. For all of the above reason of course... But if I do... I swear.... I just PRAY I receive your response.

~~ALL SET~~ This Christmas and new years.

I'll sit in an contaminated cell.  
No Radio. No television. No clock.  
The monsters of this world want it all.  
Even the spirit of the Holidays.

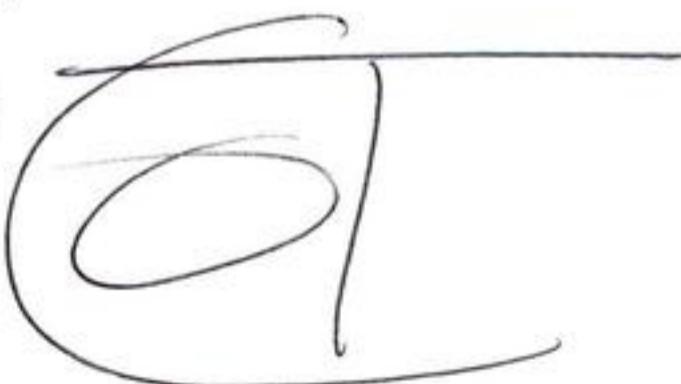

Tuesday. December 25th. Monday December 31<sup>st</sup>.  
Remember to take full account of your true, you decide to spend / share with others for ~~this holiday~~. These Holidays... because their are being out there, THAT desire for you to never experience an Holiday joyously... OR TO HAVE ONE.

And believe it or not.

They may just look like you...

Happy Holidays  
Happy New Years

**I WANT TO GRIEVE / QUIERO QUEJARME DE:** Process this complaint. Who conducted the test on the water.? Because, the federal case law that I'm aware of, says, that this water is not fit for drinking or washing. I'm unable to supply this case law... Because, I'm denied access to the law library. But as soon as I'm able to attend the law library I provide that case law.

**SUGGESTED REMEDY / REMEDIO SUGERIDO:** To transfer me to SCCC or issue me bottle water, skin sanitizer, etc.

PART B - LEVEL I RESPONSE / PARTE B RESPUESTA PRIMER NIVEL

I met with you on 11/28/18 to discuss this issue. In our meeting you confirmed that you did receive the information sheet that I sent to you regarding rust in the water at MCC. In your appeal to the level 0 informal response, you ask who conducted the test of the water and again cite a potential federal case law.

If you re-read the memo given to you, the third paragraph is where it states that the water at MCC comes from the City of Monroe and that the City "performs regular consumer confidence testing ensuring that the water is safe"

The water at MCC is provided by the city and is tested by the city and has been deemed safe for consumption.

 <p>The water is to the same cold as the water in Ferguson, Missouri. You know there is an department in this state that actually analyse the water to determine if it's drinkable. I think it's called the water control and pollution board. He did not say, they analyse the water in this facility... and determine if it was drinkable. The sedan at one place was in the 80's. Over 30 years old. And yet the problem exist.</p>	<b>Pete Maxson, CS2</b> Grievance Coordinator Signature COORDINADOR DE QUEJAS 12/3/18 Date FECHA
