

# The created Society

What is society? The relationship of men associated in anyway. A number or body of persons associated for mutual or joint usefulness, pleasure or profit. What are you creating in your society that is harming you and the people around you and your family?

What society I see today.

A medicated Society - we medicated ourselves for everything. From the mind to the body to medication to help your addiction snoped. What do you see? I am the only one seeing the medicated society. Ask yourself is this a healthy society?

Church society - adultery, homosexuality, drugs, sex, greed, wealth, molestation, pornography. Ask yourself is this a healthy society?

Government society - alcoholic, drugs, lavish ~~living~~ living, greed, deceitful, lying, ~~scheming~~ scheme, favoritism. Ask yourself is this a healthy society?

Prison society - running store, schemes favoritism, homosexuality, gambling, out break of Herpes, <sup>and</sup> Hep C, Ask yourself is this a healthy society?

Cooperate society - Greed, wealth, Drugs Lavish living, sex, prostitution, favoritism. Ask yourself is this a healthy society?

Think about these areas what do we need to do. In order for these things to get better this coming year 2019.
