Let them people seeking asylum ~~settling~~ come on over. What is going to hurt nothing. All these institutions holding these innocent children needs to be closed down. Because this is inhuman. All because they was fleeing from trouble. They should be able to do that. I often tell people these words of wisdom. A storm is not a storm until it hit your turf. None of us knows what tomorrow hold. I've seen people go through things the next thing I know I am going through the same thing. One thing in life we need to stop judging and stereotyping people who are not like us. Stop being ~~mercy~~ mercies to others. Because when the same storm enter our lives. We want everybody to be merciful to us. Showing sympathy. In order for you to receive mercy and sympathy you must be the giver of those things.

Topic: ~~ACA~~ Affordable Care Act

Federal judge rule the Affordable care act is unconstitutional. My understand they took the mandate off of it less people signed up. I feel that affordable care act was good thing for some people. Some people can care less about their health they feel their going die from something regardless what they need insurance for. Those people you cannot worry about those people they adult they can choose to do what they want. Sometime that is making poor choices for themselves. Back in the ~~the~~ day we use to choose our own private insurance company. Our was Strickland Insurance Company. I feel we need to go back to the old way in the government take their ~~the~~ hands off the people personal lives. We paid our insurance every month. Just my opinion. Someone else might feel different.
