

# INTEGRITY AND HONESTY

from The Scientology Handbook

<http://course.volunteerministers.org/play-video/vm-film/integrity>

1. Read the article "Moral Codes".
  2. Give an example of a moral code.
    - The Constitution of the United States.
  3. Essay: What is an overt?
    - A harmful act or a transgression against the moral code of a group.  
When a person does something that is contrary to the moral code [HE HAS AGREED TO], or when he omits to do something that he should have done per that moral code, i.e. Irresponsibility.
  4. What is a withhold?
    - An unspoken, unannounced transgression against a moral code by which a person is bound — A withhold is an overt act a person committed that they are not talking about (eg. Keeping it on the down-low?).  
It is something a person believes that, if revealed, will endanger his self-preservation. Any withhold comes after an overt act.  
Thus, an overt act is something done; a withhold is an overt act withheld from another or others. cf. Suppressor
  5. Read the article "Justification".
  6. Essay: What is meant by "justification"?
    - The attempt to lessen an overt act by explaining away how an overt act was not really an overt act. cf. DED
  7. Practical Exercise: ... find several examples of someone employing the social mechanism of justification. Continue doing this until you can easily spot examples. Write up what you did.
    - Today I learned that President Trump threatened to "shut down the Government" if the Democrat dominate Congress doesn't allocate a BorderWall budget, which Trump had earlier determined Mexico would pay for. The same President Trump who denied immoral infidelity - hush money. The best example though, of looking through the [False?] news reports to find several examples of someone employing the social mechanism of justification, is to identify the Merchants of Chaos who are drumming up Skepticism and therein disabling tax-paying slaves from holding Public Servents to account!
- <sup>W/c</sup> JUSTIFICATION; explaining away the most flagrant wrongnesses. Most explanations of conduct, no matter how far fetched, seem perfectly right to the person making them since he or she is only asserting self-rightness and other-wrongness.

The way the media attacked Brett Kavanaugh clearly displayed how vicious they are when they don't like someone or something. They are filled with hatred. They are not sound-minded.

2/6

8. Practical Exercise: Write down an example of an overt or withhold that you have observed. Then figure out a consequence of this overt or withhold on the person himself or the people around him.

• Media Magnates orchestrated from Rockefeller Center's Associated Press, thrive on the chaos! Overts and Withholds produce confusion which tends to overwhelm Understanding, and consequently promotes the Dwindling Spiral and of DED's! Or, Suppressive Reasonableness. All %w's are the product of irresponsibility! Ergo, displaced blame in the case of President Trump, criticising the lying news, borne out in fact as it may be, Trump is nevertheless powerless to rise above scrutiny. Freedom is for honest men! The least free person is the person who cannot reveal his own acts and who protests the revelation of the improper acts of others. Oh such people will be built a future political slavery where we all have numbers — and our guilt — unless we act, to rise above Sub apathy slavery. The consequence of %w's are of course Blows in one form or another. Much like the Second Phenomena of MU's, people who prefer NO RESPONSIBILITY (%w) become overwhelmed and degraded / disabled. Their existence becomes as apathetic or as unhappy as their environment produces sufficient "challenge" to make them feel "inadequate" To BE CAUSE and care for that environment.

9. Read the article "Blowoffs"

10. Essay: Explain the mechanism behind sudden and relatively unexplained departures from jobs, locations and areas.

• To justify irresponsibility and its consequential individuation and eventual departure, the person blowing off from situations, dreams up things done to him in an effort to minimize the overt by degrading those it was done to.

11. Read the article "The Overt-Motivator Sequence".

12. Essay: What is the overt-motivator sequence?

• The overt-motivator sequence is based upon and is in agreement with Newton's law of interaction that for every action there is an equal and contrary reaction.

12 cont.

- W/c • OVERT-MOTIVATOR SEQUENCE, 1. if a fellow does an overt, he will then believe he's got to have a motivator or that he has had a motivator. 2. the sequence wherein someone who has committed an overt has to claim the existence of motivators. The motivators are then likely to be used to justify committing further overt acts.

13. Practical Exercise: Think of at least two examples of the overt-motivator sequence you have seen or experienced. Write up what you did.

- The earlier example of President Trump threatening to Shut Down Government Services, and/or Merchants of Chaos drumming up skepticism, are safe points to address - right? But on a more personal note, let me dare address those closer to home - in my zone.
- In a Tone 1 SP Society, Prisoners, in their DB-ness, are very much Criminal in their Computations. Alas, in order to disseminate Sci. Tech. to low-tone amnesiacs, I've found advantage in establishing low-tone ARC, vilifying organized religions/authority. All the while mocking up this condition of Enemy Game, in agreement with not being subjugated by religion. I'm very well aware that Students must encounter the condition of doubt in order to start on the bridge of rehabilitation. Games trap though, so DB residue tends to key-in surfaces of GPM's therein, and corresponding dramatizations mock-up Betrayal potential in reaches to Help, which in fact creates the betrayal of withdrawing. Funny how that phenomena occurs, isn't it? i.e. Contagion of Aberration.

14. Read the article "You Can Be Right".

15. Read the article "Writing Up Overts and Withdrawals".

16. Practical Exercise: Find someone you know who would benefit from writing up their %w... write up what you did.

- The first thing I did was consider how difficult this assignment will be here in prison. Even criminal theta's are always right - in their own estimation. Indeed, as the check sheet stipulates: Overly critical people justifying their actions — does in fact indicate something is wrong — with Responsibility as for Being other determined at least. Yet, in the Survive or Succumb options, I usually ack 2.° as a MU spARC of life willing to consider apparencies. Whereas, vis-a-vis 1.° to 0.°

16 - cont.

.05

cases Disconnecting from 2.<sup>o</sup> PTS, indicates a disabling Second Phenomena Scenario, viz: Almost anyone, no matter his position and no matter what is wrong can remedy a situation if he or she really wants to. When the person no longer wants to remedy it, his own overt acts and withholdings against the others involved in the situation have lowered his own ability to be responsible for it. Therefore, departure is the only apparent answer. To justify the departure, the person blows off dreams up things due to him, in an effort to minimize the overt by degrading those it was done to. It is an irresponsibility on our part, to permit this much irresponsibility. So I went on considering how in the world can't say to JR, DK, JB, EE - my SPO Team - that: YOUR SILENCE IS DEFINING!? Some of them appear in apathy after attempting to apply domination tactics, while holding Authoritarianism and third dynamic Suppressors more important than first dynamic scrutiny of third dynamic dimensions of responsibility. The fact is, ivory tower paladins appear to have very little to no-responsibility in the DOC's war, where tax dollars create social misfits and the Psych Dept. flourishes! The Price Of Freedom is a willingness to fight for right — so live declared overts of omission and suppressive reasonableness are my foes! All overts are a product of irresponsibility. Overts alone are the biggest reason a person restrains or withdraws himself from action. Alas, considering the long standing knowledge that "in the presence of 'w' no gains (improvements) occur", I must maintain that it is my responsibility to persist as the SPO protagonist, as I see it. Knowing that language is the symbolization of effort, my intention dares others to say what's on their mind so that they can see what they think they're saying. Consideration, 3. the highest capability of life, is part of the Price Of Freedom, you see? The only solution to stupidity is through exact consideration. For the Love of Truth! Yet, individuation makes stupidity difficult to expose for scrutiny... unless altitude permits comm. The Danger Formula is the only way my SPO Team will ever emerge through the Emergency Condition and achieve Normal within KSW.

He cont'd.

I've proposed that before and I propose it now. This is what I did.

17. Read the article "Honest People Have Rights Too".
18. Final Essay: Final Course Results.
  - \* The benefit of this work was in refreshing my awareness of tech. above appearances. The mission of a techno-space society is to subordinate the individual and control him, by economic and political duress. The only casualty in a machine age is the individual and his freedom. So as a Prisoner with SPO purpose, my Integrity and Honesty are the only things I have left to lose, and I can't afford that loss! My hypercritical carping on responsibility is often taken as offensive indicators of making others wrong as a sort of cover-up... and the corresponding ARC break confusion tended to weigh on me. But truth be told, my OCA graphs show much improvement over these past five years roller coastering, I have not blown-off comm-lines, and I continue to create SPO games even when other people appoint me their executioner. A man with a clean heart can't be hurt.

✓ Yes, I authorize all or part of this work product to be published. W/ geeks 12/13/18

## Glossary

Words often have several meanings. The definitions used here only give the meaning that the word has as it is used in these () references.

- (3) Moral Code, 1. that series of agreements to which a person has subscribed to guarantee the survival of a group. 2. a series of solutions to problems which have not been confronted or analyzed.
- (4) Suppressor, the impulse to forbid revelation in another. This of course, being an overt reacts on one's own case as an impulse to keep oneself from finding out anything from the bank, and of course suppresses as well the release of one's withhold. So it is more fundamental than a withhold. A Suppressor is often considered "social conduct" insofar as one prevents things from being revealed which might embarrass or frighten others.
- (5) Dwindling Spiral, 1. one commits overt acts unwittingly. He seeks to justify them by finding fault or displacing blame. This leads him into further overts against the same terminals which leads to a degradation of himself and sometimes those terminal
- (6) Sub-Apathy, a state of disinterest, no affinity, no reality, no communication. There will be social machinery, valences, circuits, etc., but the person

P.S. (6) DED, 1. an incident a person does for which he has no motivator - i.e., he punishes or hurts or wrecks something which has never hurt him. Now he must justify the incident. He claims that the object of his injury really Deserved it, hence the word DED, which is a <sup>help</sup> sarcasm. 2. an overt act without having a justification for it in the first place.

(8) Second Phenomena, the second phenomena is the overt cycle which follows a misunderstood word. When a word is not grasped, the student then goes into a non-comprehension of things immediately after. This is followed by the student's solution for the condition which is to individuate from it, separate self from it. Now being something else, the student commits overts against the more general area. These overts of course are followed by restraining self from committing overts. This is followed by various complaints, fault finding and look-what-you-did-to-me. This justifies a departure (disconnect), a blow.

(8) MU, Misunderstood

(10) Individuation, a separation from knowingness

(B) DB, Degraded Being

(B) ARC, Affinity Reality Communication

(B) SerFac, Service Facsimile. 1. these are called "Service" because they serve him. "Facsimiles" because they are in mental image picture form. They explain disabilities of how a person is not responsible for not being able to cope. Part of the "package" is to be right by making wrong. 5. an action method of withdrawing from a state of beingness to a state of not beingness - intended to persuade others to coax the individual back into a state of beingness. 4. that computation to make self right and others wrong, to dominate or escape domination and enhance own survival and injure that of others.

(B) GPM, Goals Problems Mass, 4. the Problem created by two or more opposing ideas which being opposed, balanced, and unresolved make a mass. It's a Mental energy mass.

(16) Third Dynamic, the urge toward existence in groups of individuals.

(16) First Dynamic, the urge toward existence as one's self. Individuality expressed fully.

(16) DOC, Dept. Of Correction

(16) Altitude 2. a difference of level of prestige - one in a higher altitude carries conviction to one on a lower altitude merely because of altitude.

(16) Comm. Communication

(16) KSW, Keeping Scientology Working.

## IMPORTANT NOTE

The confusion or inability to grasp or learn new material is because a person goes past a word that was not understood. The confusion comes AFTER a word the person did not have defined. Therefore, be very certain you never go past a word you do not fully understand. A good dictionary is most advantageous!
