Subject: Is it a miracle?

Hello world (12-22-2018),

About 2-weeks ago our Veteran group had a first. In the 12-years and 4-attempts I have made to obtain support for the VA C&P medical evaluation, it was never allowed. A member of of GrahamVets, a Soldier, 10th Mtn Div, Afghan combat vet - was finally permitted a security escort to complete his C&P evaluation. That may not seem like much to you. To us, it is a miracle!

★

The VA requires a vet complete a C&P evaluation as a "first step" in being able to obtain any medical help from the VA. It consists of 3-medical evaluations and an interview by "VA" Doctors.

★

Hopefully this support from the prison administration will set a precedent for Veterans earned Rights and others will follow. wdl
