Subject: SNOW!

(1-12-2019, Sat). Hello World,

Today we have had 6-inches of snow on the ground. This is the first real snowfall I have seen here since 2014. Now, if only I could go outside... maybe next year.

So we are expecting another 3-4 inches of snow today. It is the thick and heavy kind. The kids must be loving this. Perfect for snowmen, snowballs, forts and igloos. This Mid-West weather is great for farmers, but confusing to this New Yorker. If this is global warming I may have to move to Alaska or Montana.

It's bringing back a lot of good memories of growing up on the East Coast and New England Winters. I'm really missing some real Maple Syrup right now. One day...

Just an update. wdl
