Hello Evy Nerbonne:

I recieved your message on February 4th.

Thank you for your support and encouragement. I got the final paragraph of your message - the first part must have gotten erased because I didn't receive it.

I ofen wonder who reads my blogs. Do DOC officials? State elected officials? Those are the ones who need to be educated but I know from personal experience that DOC officials are among the most insular, close-minded people on the face of the earth. They have a groupthink mentality which prohibits dissension and only allows internal promotion of like-minded zealots.

How Governor Evers will ever reform the DOC is beyond me. Perhaps it will require Divine Intervention . . .

Have a fantastic day!

Harlan
