

The Broken down Salesperson

who is the broken down Salesperson. One who tries to sell you a car that they know the motor is not good. But the outside of that car looks extraordinary. Do you smell deceptions. It's ironic that it's something you always wanted it. You purchased the car guess what you find out quick that the dealer deceived you. Oh no you say you took my money. Now you find yourself in court fight for your money. Because the motor was getting hot no other deal was offered to you. All you know this salesman tricked plus you already having financial difficulties. Once you had that experience. You went to a friend, you told them about Jody's car lot. The word of mouth got around. Don't go to the car dealer "Jody's" Everyone who money takes was deceived pushed for Jody's business to be closed down. So why I tell you this story. Donald J. Trump reminds me of that broken down Salesman who is trying to sell the American government and people lies to get our money wasted on business adventure that is fruitless and stupid (The Border Wall) that serves no purpose. Fact check clearly shows that Drugs and illegal immigrant comes through legal ports. Clearly a large amount of Americans is change with Human Trafficking every so many seconds a child or human is being ~~abused~~ abducting for human trafficking or being lured into human trafficking. Drugs are being made in America rapidly. Americans are being delegated in the gang rapidly. All this going on ~~on~~ in America the Beautiful. Why is it when immigrant on immigrant killing happens Mr. Trump has very limited to say. When Black on Black Killing each other nothing is said. But when a Immigrant kills a white person. You hear a never ending story poor ole Sally lost her son to a illegal immigrant look at her. She is going through it. Wasn't her daughter beautiful what about all the people killed daily by guns, vehicle homicide, illnesses and

drugs we do that are not white. What about the people that are not the race that you edify all the time. The world ~~is~~ is not build for one race or gender. God created the world to be diverse. Meaning he created every race. So with that being said of a white, ~~black~~, latin, Haitian, Korea, China, African American, Japanese, Indian, etc. whatever happens to that person God cares. If we call ourselves Christians such as Donald J. Trump. His action would match up with his belief. God is not the author of confusion. Borders wall nothing but confusion on Donald J. Trump behalf. I am so tired of Donald J. Trump trying to be so flamboyant with the American People. look at what I have done thousand that! But none of what Donald J. Trump says has substance because everytime you fact check, it's a lie on every end. Then he uses all these white individuals as a pond in the audience during his events such as State of Union and State of Emergency. For the American people to say oh poor ole Judy. I am sorry that happen to her. Have you ever heard of false compassion. False compassion tries to persuade you into believing the person really cares about you and situation. Basically the person reasoning with you about the situation but at the end they use you for their end game to get what they want. The truth of the matter is they can care less about you because hey it ain't me. So all the people who has been setting in the audience of the State of Union and State of ^{Breaknews} emergency - you need ask yourself do this man really care about my situation. Are Donald J. Trump using me as a political end game because he is in the hot seat because he has ran a campaign that his political promises was far fetch. How many of you setting at the events wonder of their other races that lost a family to illegal immigrants ~~are~~ killing them. Are you just worry about your ~~race~~ race. You will go to the back for your race. That is what happening with Donald J. Trump

It's a color agenda base. I have another question. We are out of the ~~\$1~~ trillion trillion dollar deficiency we owe. Is America bills are getting paid or is just a lie America trying to get on the riches country map. By the tariffs and new businesses etc. What is exactly going on? Donald J Trump. The state of emergency show that Donald Trump is out for what he wants not American people. Clearly fact shows through statistic a wall is not needed that more security and updated equipment is need at the check point. There are so many avenue ~~for~~ for ~~a~~ illegal immigrant and drugs to enter America. Who is going to suffer during government shutdown and State of ~~emergency~~ emergency. THE AMERICAN Federal Government and Workers(PEOPLE) why Donald Trump wants to continue to have cat's fights with the other party's in the government who are very stable minded Chuck Shumer, Nancy Pelosi etc. Thank you all. I salute you all out of respect. Not everybody have their big boy drawers on. Some still have a diapers on, whimpers like a little boy over nothing. For heavens sake give somebody give Donald Trump a bottle of milk. I guess you say what should we do as Americans and government party's over the state of emergency. I believe it should be a lawsuit file in the federal courts. The judge should shut down Donald Trump foolishness down for good - only given him money for more security and more update equipment at the check point. Even a fence wouldn't be strong on our military bases. The you are met going to let you in except for you show your identification. The Ball is in the federal courts to treat the Americans right concerning our government nicely. To continue
