

The disadvantages that is not
necessary

I have been in the system 22 years. I have never face the
encounters I been facing and some of the inmates at Pulaski
State Prison. We've always had a grievance system. Grievance
is every prison over the United States. Prisoners still have some
rights. Grievable issues: Any condition, policy, procedure,
action or lack ~~there~~ thereof that affects inmates and
is in the control of the Department of Corrections, other
than those listed above notwithstanding the above, any
grievance alleging retaliation, misconduct or harassment
is grievable regardless of the form. The computation of
sentences is specifically included in issues that may
be grieved. We having problems with counselors signing
off on your grievance. Because you suppose to get
the officer to call your counselor and put it in
their hands so you can get a receipt. And if your
counselor is not available. Any counselor can sign
off on the grievance. But this not happening. You have
people ~~to~~ sentence messed up at Pulaski State Prison
that tries to get help. You have counselors that
are trying to keep people in Pulaski State Prison.
Some people are eligible for the halfway house.

They thinking they signed up but only come to find out their not. People have problems with counselors that are so combatable in their attitudes and don't care to help their clients till they have been writing the chief counselor to get their counselor change. In the process at Pulaski State Prison in the midst of you trying to get help sometime you are ~~retalia~~ retaliated against or harassed by officials. In looked upon as trouble maker when only your trying to get help for your situation. The situation I have going is with the clothing warehouse and Deputy Warden that is over this department. When you enter the system they suppose to provide you with the things Department of Corrections require you to have. The same way when you are housed in the penal for a while still suppose to provide what you need. I have been wearing socks with holes in them for three month, I have two pair of panties that ~~has~~ has holes and worn out. One pair of panties don't have no front to them. I have put in a clothing request for three months to Deputy Warden over this area and the warehouse supervisor. They have been having to wait for clothes to come in. But when they get here majority of ~~the~~ women needs are not being supplied. My tee shirts are worn out as well. Our warehouse should stay

full of all sizes they need at the prison. Running out clothes and not having your size is not right. Not having the clothes is not right. Regardless of the population of the inmates. Female inmate personal property inventory says we suppose to have

5 socks

2 sweatshirts

2 Thermal set - you can't even get this unless you work a outside detail which is wrong because our coats are very thin

4 undershirts

5 panties

5 Bra - they giving everyone sports bra why?

1 Housecoat

2 Pajama sets

5 Khaki Pants we only get (3) why

5 Khaki shirts we only get (3) why

2 Pillowcases only get (1) why

Could somebody help the women at Pulaski State Prison redder these issue.

This is a personal issue I am having with a Judge in Decatur County Bainbridge GA. Chief Judge T. Kerrishason. Regardless who made the mistake is myself Jennifer Johnson and husband Christopher Norman ^{was} Criminal case. The case base on circumstantial evidence. hear say a lot of it. You cannot charge nobody with murder based off cruelty to children. If you would study case where people was charged with Felony murder and cruelty to children. It was vacated

because the indictment was void. Example case Defendant
may not be convicted of Felony murder and also be convicted
of the underlying Felony (cruelty to children) which was alleged
by the indictment to support the conviction of Felony murder
Zadekery v. State 257 Ga 442 360 S.E.2d(1987). This make us
being falsely imprison under a void indictment. I wrote
letters and file motion after motion. This man pride
will not let him connect this situation to save his life
I need somebody to step in help me.

Please Step in help
Somebody
Somewhere
