back in reality im growing n learnin. tryin 2 find a book on desgn /design theory so i can b better equipped 2 design shoes n products. they got a book at the library bout design n engineering guess im gone have 2 read it. all knowledge is spendable currency... did sign up 4 a correspondence course about design but its geared towards landscaping ,either way least ill learn some design principles as one of the books deal with the history of design.

well i have 2 finish a package i want 2 get in the mail so,ill talk 2 u soon
