

SIRWIN 2020

Thank you for responding to my post on my "BLOG PAGE". I deeply appreciate all your help in spreading the word about our prison conditions. I think if more & more people know how prison life & conditions are truly are - their view on prisons & the inmates would change. When I was on the streets I didn't know much about prisons but after being in prison for almost 15 years - I know a lot more & my view has drastically changed. I just pray with people like you spreading the word about how bad our justice system & prison system is - that some day it will get better. Thank you again for all your help.
