Sulin,

Blessed greetings.

How R U?

Got ur letter I will respond
2 it after I see Parole (July)
Hopefully I will see them early
(ie in the beginning of the month)

July 15th came 2 me!

But...

I'm gone write Records at the end
of June - n. find out the exact date.
After that mark it on my calendar, tell
my family - n. post it on the BLOG. o

Definitely gone ask 'em 2 go home
as a birthday present. Am I wrong 4
thrs?? Hope not!

But even if they don't release me
whenever they do it will B cause 4
celebration. Hip Hip hooray!

In response 2 inquiring minds my
birthday is July 12th & 13th...

Meanwhile alot has been goin on
in Wisconsin's legal system. The Governor
hired a new Parole Chairperson, who
started a week ago 2day! His name
is John Tate II. N accordin 2 his own
words he's willin 2 release those

under parole who have done 20 plus years in prison. He conveyed in the newspaper that "Either the system (of rehabilitation) works or it doesn't. We can't say the system works but not release people - that's a contradiction."

Amen 2 that!

Prayer if I should write him a letter of support on behalf of myself... if I do it's gone B start - n - 2 the point regarding who I am behind the scenes - n - X I KNOW I won't B comin back 2 prison - ever again. Amen.

On the flip side ~~some~~ rumors started that Mr Tate II is allegedly going 2 B sitting in on the upcoming parole hearings his 1st few months in office. We'll see June 25 when 2 people I know go 2 parole. B good 2 have more than 1 person make the decision wish it was a board like it used 2 B -- NE who Tate also said he would release those who could "prove" they rehabilitated & deserve a 2nd chance 2 B productive members of society.

Amen 2 that!

Still, my plan is 2 just speak from the heart. I have no desire 2 "run game" or mimic words from the next man. I'm an individual - n - prefer 2 B judged as such. So when I go my only plan is 2 answer their questions openly - n - honestly. If they ask me what I have 2 say I'm gone I let them know that I would prefer 2 do a Q-n-A rather than boast on Y I feel I should B released. Have 2 stay mind full that I'm not entitled 2 release, that "it's a privilege" not a right...

Well thanks 4 the story... It has already helped me B a better writer. Gotta just write - n - not overwrite! It reminded me of my childhood, how naive "we" all were but how "we" still had common sense enough 2 ask "How come..." Also in my community the Elders also were women (where have all the men gone) The microscope reminds me of 5th grade X-mas. Microscope was the only new toy I got. Figured I'd create a pill or discover a cure 4 AIDS then so on 2 B successfully rich - n - famous. The novel Black Boy - by Richard Wright also came 2 mind the '35 convo brought home memories of my meager response when I asked 4 Jenkins. "Boy U know what I can do with \$100?!" Well will write U in July. Promise...
