Subject: 60 Days plus

It's just over 60 days at Kewanee Life Skills Re-entry Center and my hope for a successful transition back into society has increased 100 fold. I hope this model of prison reform will continue to be implimented and improved.

\*

At the last facility my hope regarding leaving prison was very bleak. It seemed that there were so many hurdles, roadblocks and intentional goals set in place so you would fail.

\*

First 2-weeks here I saw a light at the end of the tunnel. Between the Staff, the Program design and the Volunteers/teachers coming in my hope improved 50%.

\*

By the 40 day point I bagan to feel more human again. Began to speakmore normally. Started to let my guard down some.

\*

Now, three weeks into a Business class and I have a renewed confidence that I WILL SUCCEED! wdl
