Subject: Leave poor Iran alone...

Really!?

The bleeding hearts of America.

This is why I dislike many of the Democrats, like Nancy Pelosi. It is not America's fault when bad people try to kill us!! Stop blaming our own and covering up evil world leaders like Putin and N. Korea's Kim.

\*

Have we so quickly forgotten the hundreds of Americans killed in Iraq because Iranian actions in country and supplying weapons to enemies of freedom? The political and internet attacks within our own country backed by Iranian government agents?

\*

It's so easy to attack our own, our friends. It takes courage to do and say what is right regardless of the consequences or violence that it may trigger. Cancer is cancer... Cut it out now, or suffer much worse later by ignoring it.

Cancer is not your friend, stop treating them like friends.
