Mass punishment In the Women prison (Pulaski State Prison) Georgia

So many times we think when a women sentenced that is the end of the story. But not here in Georgia. Some inmate such as I comes in saying I am going to do what these people tell me to so I can get home to my family. How many know in society know of their love ones doing that but their female relative has yet to make parole, she don't get into trouble. She tries to follow the rules. Just a peaceful inmate. When is good enough for the correctional officer, warden and Deputy Wardens and counselors who oversee us everyday. If you follow the rules the officials don't like you. Which I would personal think at least that inmate is not a problem. But no that is not the case here. Since you're not a problem, they will create a problem for you, make you look you are a problem. The thing about women as a mass they are afraid to stick together on grievances & any procedural because they are afraid of retaliation from the staff. Standing up for your rights is not disrespectful. But the fear keeps them from speaking up or getting help at Pulaski State Prison. SOP says staff is not to harass, retaliate, or provoke inmates. Do inmates suppose to do what they want absolutely not. Do inmate building should be single out all the time because they got a few bad inmates in that damn absolutely not. Those types of inmates are in just about every damn on Pulaski State Prison Grounds.

Is everything taken from their dorm because of a single act
by few people absolutely not. I am tired of every dorm I
live in. Is always been harassed by officials who don't like
~~me~~ me because I think I am little ~~more~~ perfect. My mind set
was to do what I suppose to get home to my family. When I
lived in F-2, E-2 it doesn't matter they would find some reason
to harassed that dorm. somebody can cough wrong. Here comes
the threats and harassment. They are quick to send us to
our cells without ice or hot water for hours. Standard
operation Procedures says we can only be locked in our
room for 2 hours at the most. I guess you say their prison
that are lock down 23 hours. Pulaski state Prison is not that
bad where you have to do that. Every once in a while you
might have fights etc. It does has some things. It appears
that people who is causing the troubles in the dorm. Does
it especially in E-8 and E-9 because they know everybody
is going to get punished. Right their is how a repeated
offender is created in system because why they are not
being punished for their wrong individually and not
learning no lesson. For the ones who are being punished
along with them even though they are innocent. You are
creating a angry inmate to enter back into society
angry and bitter at everyone because they have suffered
so much injustice behind the wall. They have become
numb to people, who they are as a prison and to others
wellbeing. I used to wonder why certain people come out
of prison angry act like a ~~lot~~ wild animal out of
control. Now I see how they are treated ~~by~~ behind
these walls.

They loose hope because when they doing what they suppose they are treat like trash behind these walls as if they are nothing but trash from the scum of the earth. What does mass punishment looks like. 06/23/19 Sunday I work on weekend kitchen. So everybody trying to get the kitchen clean so we can hurry back to see the BET Awards. We ~~was~~ did it. yeah! Somow the inmates are happy to get back to the dorms. take a shower, fix something to eat and set down in watch the BET award except for building E9 they had been on mass punishment for a while. So I live in the other dorm E-8 they like to mass punishment. I get to my dorm people hollow out the window we lock down. I saw like what they begin to tell what happened. I had noticed this new officer in the dorm had come with a already sabotage attitude against the dorm early that morning. Because what the officers do and staff. E-8 and E-9 they think they run something. I saw going to show them who is in charge. when E-8 is not that bad. so the officer told me go to your room you all on locked down. mind you I saw just coming from my detail. I said could I take a shower no go to your room. no ice and water etc. I had to convince the lady to take a shower. I said ma'am what happened why as we on lock down. Quote I saw not going to argue with inmates. The inmates in the building said the officer mash the access button and they came out some of them. They seen inmates walking around in dorm E7 and on the walk. So they

My suspected count was clear because those inmates was out.
The officer tried to send the inmates back in the room stating
count has not cleared. Instead of her calling to see if count
had cleared, she called security talking to Deputy Warden
of security making it seems like the inmates was just
doing they own thing and refuse to obey her. They was
arguing with her. Which this same officer has had complaint
about her in E-4 and E-5 because inmates do talk amongst
each other. At Pulaski State Prison is always the
inmates fault for everything. When sometimes actually
it the officer fault. So 06/23/19 Sunday took our TVs
and made us go to bed at 9pm (two week store restriction)
Could not buy legal and personal supplies off the store. E-8A and B
06/25/19 The Warden, Captain and Deputy Warden of Security
took our Tablets E-8B and A
06/25/19 The Warden, Captain and Deputy Warden of Security
Shook E-8B side down
06/27/19 Some one broke into another inmate locker, nobody
didn't see who went into the room. The Lt. put the whole
down E-8B on lock down. I came in from the kitchen. I ask
to take a shower the Lt. told me to bath in the sink. Plus we
was on restriction to go to bed 9pm. I had to beg the next
shift officer could I please bath. Everytime we as inmates
stressed when someone do something it has nothing to do with
the next inmate. We didn't come to prison with them. They
say we are a whole.

How is that individual going to learn from their own mistake. The prison are creating repeated offenders and angry inmates. Because of the mass punishment and harassment and some of them will try to provoke you by how they talk to you especially our Deputy Warden of security. He be rude to inmates all the time. One lady said sir what have I done for you to be rude to me. He looked her down. Pulaski State Prison has went down. I just choose to be quiet and speak out in different way. Doc needs to do something different with staff at Pulaski State Prison and how it's ran. Some of us give the staff the upmost respect and follow the rules but do we get it back instead we get mass punishment
