Subject: Kewanee accountability

Some specific rules of accountability are being implemented and a lot of men are complaining. Those of us that need and want this program to succeed are happy about this strict accountability. There are many criminally minded that just want "easy" prison time. They lied in the application to get here and they are stumbling blocks to everyone who are studying with heart. They are upset about being held accountable. The rest of us are taking a sigh of relief and saying, "it's about time."
