

Who And What Is A Nigger?

By A Young Black Child.

TALL, PROUD

Ranel, a handsome, bright, Afrikan Amerikan youth - a black child who was born in Europe to his American parents - his parents traveled abroad working for the State Department. At the age of fourteen Ranel's parent moved to Cleveland, Ohio to live. Prior to Ranel had attended private schools and had been home schooled.

The first day of school as anyone can well imagine was very exciting for Ranel. It was a very warm summer day and children were seemingly everywhere in and around the school grounds awaiting the school bell to start the classes. Ranel saw several groups of black children milling, playing and just horsing around..

As Ranel walked nearer to one of the groups of children, he heard them very loudly and continuously saying "I am a real Ninja, My Ninja, Ninja, Ninja, Ninja this, Ninja that.". Ranel stood there some what dismayed trying to figure what type of game the children were playing and who and what is a NINJA?. As he stood there looking, a few of one of the groups of children approached and inquired of Ranel "Ninja, where you from?" Ranel looked baffled looking behind him for Ninja and as the question was repeated Ranel spoke "Non, No, that's isn't my name, my name is Ranel."

The three black children who had challenged him all burst out laughing saying " Did you hear that crazy Ninja, he said his name isn't Ninja., ha, ha, ha,." Ranel stood there bewildered at the boy's actions, again trying to figure out what was the game - but also irritated at the way the boys was laughing at him, because he told them his name. Ranel noticed a group of white children standing by and who obviously had heard the verbal exchange snickering, turning and walking away for Ranel..

During class Ranel could hear a few of the black children in the back of the class talking and joking around not paying attention to the teacher - still he could hear the ninja, ninja word over and over again as if it was the only word in their vocabulary. Ranel immediately could tell that none of the white children was engaged in this Ninja, Ninja game. Before Ranel knew it his hand was in the air waving to get the teacher's attention. The teacher pointed to Ranel. "Yes, what is it?"

Ranel calmly and innocently asked "Who and What is a Ninja?" The white teacher looked at

Simply

him for a few seconds exclaiming "excuse me!?". Ranel unhesitatingly repeated his question, he simply had to know, his curiosity had gotten the best of him. By the time his teacher's face was as red as a beet and she was visibly embarrassed as she glared at Ranel attempting to read the genuineness of the sincerity of his question. As the class room was going wild with laughter - and in a dismissive tone, she replied "That's a question that your parents would be better suited to assist you with..

Ranel looked away in acceptance of his teacher's non-answer and; trying to drown out the loud laughter of his class mates. As the school day ended and the school bus had dropped him off in front of his house - Ranel was still full of ~~the~~ energy - he ran in the house - spying his parents standing in the dinning room talking - totally forgetting his manners of greeting his parents; interrupting their conversation without excusing himself - overwhelmed with the frustration of the day, he spurted out "Daddy, Daddy, who and what is a Ninja?"

His father was repelled as if he had been struck and then with a shocked look on his face; he was visibly taken aback - and looked as if he was thinking of something to say in reply. Ranel's mother rushed over grabbing and hugging Ranel tightly, saying "Baby, I am so very sorry.". While in his mother's tight grip Ranel was confused by his parent's reaction - now feeling that the word was something bad.

Ranel then noticed his Grand Pa and his Grand Ma in the living room looking on, obviously having over heard Ranel's question. Ranel began to pull away from his mother's grip to go and say hello to his Grand parents - when he heard his Grandfather order him to come to him; he then ran over to his Grandfather, who directed him to sit next to him.

His Grandfather, a sixties "Black Panther" began in a serious, stern paternal voice as the patriarch of the family. He quire Ranel as to who he had heard 'that' word from and Ranel told him. Grandson, that is the most obsence, prohibited word in all of the english language and you must never ever use that word in any conversation with anyone for any reason. Based on the historical coined history of this disgusting, vile word coined by some of the most primitive, barbaric, evil, ungodly people in all of history.. That word is a drawback to America's dark and 'ugly' past, the days of the "Black Holocaust". That word was coined centuries ^{ago} by primitive individuals - who was part of an International Conspiracy ~~who~~, who captured, stole and kidnapped millions of our African ancestors from Africa to be Brought to America against their will - on a slave ship packed in like sardines and many didn't make the slave ship passage over here. To be held as 'hostages' slaves to perform forced labors for their cruel slave masters from sunup to sundown and beyond, 24/7. To be held on a slave plantation by arms of forced until their death and their children -children and so on and so. All to fill and lined the pockets with Black Gold, Black Slave Dollar\$\$.

Force of Arms
THROW

This American tragedy, the "American Black Holocaust"; enslavement of the Africans, the worst of the worst in all the annals of history. Black people were formally enslaved in America for 250 years and; informally thereafter for 100-years of defacto slavery, ending circa 1065.

Our African ancestors, our mothers and daughters were raped, beaten and killed; our fathers were tortured, maimed, murdered and lynched at the psychotic whims of the barbaric slavers with absolute impunity and immunity.

The word Ninja was coined and used by slavers for one purpose to address, demean and identify an African black person as someone far less than themselves, a sub-human with no political, citizenship, or human rights or privileges; the black slave was deemed no less than a work farm animal.

It has been reported that the word NIGGER originated from the mispronunciation of the NIGER RIVER, pronounced NIJA; but mispronounced by backwards, ignorant slavers ^{AS} NIGGER, NI GAR. That word pronunciation simply caught on and stuck - becoming common among slavers. The word was then used inter alias to dehumanize, animalize, brutalize and specifically to separate the persons of the slave master from his black slave.

During formal slavery, a slaver could lawfully dispose of his human slave property in any matter his psychotic choose. Literally he could kill his black slave in front of the Sheriff with absolute immunity suffering no criminal penalties or sanctions.

This repulsive, insidious "N-WORD" spoken cross-racially from a white slaver against a black slave was liken to a lethal assault, to castrate and to emasculate the humanity and manhood of the black man. It literally meant "YOU ARE NOTHING, A DIRTY, FILTHY NOTHING."

YOU ARE NOTHING:

Grandfather, if this ancient history of this coined word is so awfully bad, meaning that you are a dirty, filthy nothing - then why are these black children named and calling themselves and other black children NINJA, NINJA < NINJA a hundred times a day, like a continuous looping tape recorder - and from where did these children learn this awful word?

Grandson, that question is one of the greatest psychological mystery of all mysteries; not so much the who, but the why? What is so important and so excitingly thrilling that it must be repeated over and over hundreds of times a day? That grandson is the question of all questions. That any consciously sane, morally intact, intelligent, reasonable individual in the world would knowingly name, identify and call himself and others by an ancient coined racial epithet - of NIGGER.

This very ancient word was coined by the enemies of our African ancestors, and afterwards the African American people; and all people of good will and moral decency. Obviously these young black children know not what they say, not only having been uneducated, but uneducated - and now infected with the deadly, ignorant "VIRUS" of Intra-Racism (self-hatred) - from either their parents, relative, family members, others, media Gangsta Rap-music, etc.

To broaden your question in general the common usage of this unspoken, socially prohibited "WORD" is generally spoken amongst the lower, uneducated class of blacks living in crime infested, drug infested, dysfunction, broken families, impoverish neighborhoods with LIMITED ACCESS AND OPPORTUNITIES, called "HOODS".

These young black men are habitually engaged in this mindbogglingly, self-debasement, obsessive spewing of the poisonous-pus of the NINJA word; possessed by the "MANTRA" sound of the extreme excess, repetitious use of the Ninja word, like a religious in Homage praise to the "GOD OF THE NINJA"., multiple times in every sentence, using it as a verb, noun, pronoun,

adjective and exclamation. To these young black men, the addictive "Mantra" sound of the Ninja word is Godlike religious praise of homage requiring them to repeat the word hundreds of times a day. These mindlessly possessed black have "Forfeited" and relinquished their rights as constructive "Positive", productive members of society. Having collective or individually, unconditionally surrendered their will to excel into mainstream American society; having succumb their honor and dignity, accepting their choose decision not to attempt to meet or to reach the economical and moral standards of the majority. These blacks unfortunately and unknowingly are now willingly contented with living down to every ignorant racial stereotype every placed on Black Americans by evil non-black Americans.

Consciously or unconsciously by these lower class young black men habitually, pathological spewing of their racial shame of self-hatred of Intra-racism, naming and calling themselves and other blacks by racial-epethet. That he has consented by his actions deeds and language to being nothing. "YEAH, I AM A REAL NIGGER, A TRUE NIGGER, A HOODLUM, A THUG, THAT ROBBER, THAT MUDRER, THAT RAPIST, THAT NIGGER IN THE ALLEY AND EVERY OTHER RACIAL STEREOTYPE CONCEPT THAT YOU MAY HAVE OF ME. SO FEAR ME!

Grandson you are what you say you are. These young black me have lost their way, having been stricken down with this ancient deadly racist "VIRUS" of of Intra-racism and of B;ack-on-Black Violents; in total abandonment of the seemingly eternal struggle and search for moral and human decency in doing better to pass it on.

A black person who has fallen and stooped so low as to loudly and publicly announce and call himself and other black men and even now some non-blacks as NIGGER; is a severely mentally ill person and this is his desparate cry for help, love and attention; suffering a Mass Psychosis of self-hatred, termed "BLACK RAGE", that needs to be medically treated. Inexplainable so, this insidious, ancient deadly "Virus" has resurface, regenerated itself from the minds of American slavers of old. These young men hate themselves, they hated the blackness of their skin and the blackness of other blackmen, hence the epidemic national scourge of Black-on-Black violent; a National Disgrace, National Shame, and a National Health Crisis of unparalleled proportion

The moral of this story grandson is that no reasonable, sane person would loudly and publicly demean himself and thers - unles he is suffering... Unquestionably young black men are suffering having been declared an "ENDANGERED SPECIES" by the U.S. Goverment decades ago; they are in a sense abandoned.

Jews don't call themselves "KITES"; Germans don't call themselves "JERRYS OR KRAUTS"; Itialians don't call themselves "WOPS"; Chinese don't call themselves "CHINKS"; Japanese don't call themselves "JAPS"; Vietnamese don't call themselves _____; Whites don't call themselves "CRACKERS OR HONKIES"; Mexicans don't call themselves "WETBACKS OR BEANEATERS>", so forther and so on. Only young black men call themselves by a racial slur and epethet of NINJA

Innumerable numbers of young black men all across the country call and identify themselves as (albeit not in words) as part of a large national "NINJA-CULT". That the obscene coined hateful N-word by barbaric slavers of old against African slaves and the enemies of the African American people - has been changed in spelling and in meaning and thus, the N-Word now has a new beggining and has nothing to do with its coined ancient, vile, racist. violent symbolled past. It has a brand new meaning.;

- I). A term of endearment,
- II). Friendship,
- III). Common slang,
- IV). Meaning My Dude

V. CAMARADERIE

With that puerile, feeble, asinine attempt by the religious, Ninja Cult members' rebirth by justification of the American Black Holocaust symbol of the historical atrocities of the slavery. To reuse by so-called reinvention of the ancient, now obsolete, decades past societal prohibited N-Word by American slavers used against "our" African ancestors is to throw dirt of total disrespect on over hundreds of years of slave beatings, torture, rape, maiming, murder, lynching and unto ll physical and psychological devastation and harm. and; that of the African American people. To rebirth by any spelling and meaning, the verbal coined weapon and tool of the of the enemy slaver used to decimate the humanity of 'our' African ancestors and the African American people of today - is rape of the intelligence.

YOUNG BLACK RELIGIOUS NINJA-CULTIST

These young black men have been stricken with a deadly racist "Virus" of a mass psychosis of self-hatred; they are without a social or moral conscience; without dignity, pride, or honor; with no sense of societal responsibility or accountability; Ninja-cultist are societal Piranhas, predator, recipients; many if not most Americans have declared these young Ninja-cult spewing declared NINJAS as irrelevant; Ninja-Cultist hemorrhaging of self-hatred, Black-on-Black violence has spilled over to murderous Domestic Violence against Black Women and Black children; young Black men loudly and proudly scream announcing their preference is for that of a White women or Mexican women; anyone other than a Black women.

NINJA-CULTIST NINJA SPEWING YOUNG BLACK MEN

Are a grievous and grave embarrassment and shame to the African American people; and to all other morally intact, decent minded individuals. The sickness of this poisonous-pus, self-hatred of Black-On-Black Violence is more than Black American can bear.

African Americans are the greatest survivors of all survivors; having survived in combination 350-years of slavery, repression, oppression and torturous genocide of the "Black Holocaust". The worst of the worst in all the annals of history; by the cruelest enemies of the African blameless people. In this declared and undeclared ware against the American African people. There have been millions upon millions of dead and living casualties; lives destroyed, lost and stolen; during former and even post-slavery, called defacto slavery; from 1865 until 1965; so many lives senselessly and needlessly sacrifice all in the American Racism.

We must and we shall overcome this deadly challenge, this deadly "Virus" racist attack upon the hearts and minds of our youth and young men as we have historical survived and done all other threatening challenges. To once again restore our pride, dignity and honor of all Black Americans

We are the loyalist of the loyalist of all Americans; we have stood by America from day one of its stolen inception; Black men have fought in every war for Non-Black American rights and freedom, even while "we" were in slavery; from the Revolutionary War on. We have never declared war betrayed America; the Red-Man did because he had to; the Brown-Man did, the Mexican War; the White-Man did during the Slavers' Civil War; the Yellow-Man did during World War II..

"WE" stand alone as the Loyalist Americans. "WE" are the strongest, most able, most accomplished minorities in all the world and in the annals of history..

We will not quit, not surrender
We will not be moved and we will
Never be conquered; ever again

Grandson, your greatest intellectual defense in life is a competent education of your history and of self and more pointedly: WHAT DO YOU STAND FOR? To know that you are a black child of a historically proud, noble and courageous people; who are survivors and have overcome every obstacle placed against and in front of 'us'. So, you must learn and know your Afrikan American Black history. This is your rock, your foundation, your lineage and link from the past into the future.

The cultural lesson of 'our' trials and extreme tribulations of the past is your sanctuary that you need to return to from time to time - to rejuvenate and regenerate your spiritual well-being, to once again return to this endless struggle of Living, Learning Applying. AND

Reason and logic dictates that if these young black children insidious obsession with contaminating their minds and polluting the air with ancient, obsolete racial epithet of naming themselves and calling others a NIGGER. If these children truly understood and knew the grievous anguish of the genocidal torturous history of America's racism and hate towards and against Black People; the death and dying imposed upon 'our' Afrikan ancestors simply because of the color of their skin. Having been label and literally branded as a NINJA.

Just It would be unfathomable to still conclude that these careless youth faced with the 'rea', raw and cold hard historical facts of the N-word usage against black salves - during slavery and to imagine what it must have been like to be in the shoes /barefoot of our Afrikan father to be called and identified by this inhumane term of NIGGER,

O' what would 'our' ancestral African fathers say to these black youth having embraced with endearment the very 'word' used by his murder, rapist and killer to identify, now being voluntarily by these black youth to identify themselves. O', the shame of it all. But just maybe,, him

An epiphany will occur and descend upon and around them and it is reasonable to say - that no longer will these young black children callously without any respect or regards; loudly, joyous and proudly revile in intra-racism of self-hatred against the blackness of their skin and others, branded: NINJA. The old adage that if you knew better than you'd do better.; may change their lives.

Grandson, to be respected you only need to be respectable in your appearance, mannerism and in your speech. It is as easy and as simple as that.

Surely, it is easy for you to understand why many if not most people do not care to and choose not to associate with young black men with such racially vulgar and limited vocabulary of the "N-WORD " and "THAT'S CRAZY ".

While we must forever remember with compassion the incurable facts of the psychological unhealable 'wounds' of the history of Afrikan American slavery ; and those festering wounds having somehow or another been passed on genetically to this young generation of black men.; now stricken with this cancerous and deadly racist "VIRUS" of intra-racism, hatred of their blackness to include black women, hence Black-on-Black Violence to include murderous Domestic Violence,

What we will not allow is mental self-enslaving, with the racist tool of labeling ourselves and children as NINJAS committing physical and psychological suicide.

My son 'we' are the creme da la creme, the Salt and Wind of the earth..

MY BEAUTIFUL GRANDSON
I LOVE YOU!

THE NIGGA "N" WORD

THE RIGHT HONORABLE, ELDER
Mr. Otis Lee Rodgers, Sr.

COMMENTARY: Brotha Achim is a revolutionary writer in a whole lot of ways. For starters he uses his pen to change our ways of thinking, offer powerful ideas, and gives his perspective on a number of ills that plague this country. But not only does he do that, he also writes about subjects that most writers are afraid to write about. And although "we" don't believe in fighting a particular group because they're oppressive with oppressive tactics, we do believe something need to be said, something need to change in order for this country to keep from spiraling downwards. In this treatise Brotha Achim tackles, the forbidden for some, terms of endearment for others, **THE "N" WORD**. He gives the perspective of most older blacks, civil and human rights advocates; especially those during the sixties and seventies civil rights struggles; and as well as the perspective of younger blacks and then wraps it up with his own conclusion. The same way you would do in a college paper, only people in college are doing it for credits while Brotha Achim is obviously doing it to teach and influence change in the values and social conscious of others.

The "N" word is a most profound sounding word when spoken cross-racially in anger in its entirety, so alarmingly abhorrently - repugnant and disgusting to so many people that the general media will only print or speak this word in abbreviated form(s) to avoid offending its readers/listeners. The vile history of this word is well known to nearly everyone of maturity and especially those inexorably oppose ^{to} its continued epidemic wholesale usage and those who refuse to quit and continuously use this forbidden word are now being ostracized as being "ignorant", targeted for censorship, condemnation and reeducation.

UNQUESTIONABLY AND UNDENIABLY, historically this word used by primitive savage whites in this country represents the absolute most odious, unconscionable-incomprehensive pathological form of racial oppression and cancerous ignorance in all the annals of history. Nevertheless and notwithstanding all the painful memories of the holocaust that the African nation of ameri-Ka has had to suffer and still enduring - it simply does not explain the neurotic-paranoia and near psychosis of 21st century blacks who venomously oppose its usage. Needless to say we are not a monolithic people and our beliefs and understandings are as varied as our skin color.

I claim with reasonable certainty^{ty} and indisputably so all decent-minded, morally-intact individuals would oppose the usage of this word cross-racially.

That is to say by a non-black directed to a black person.

This writer is neither "pro" nor "con" to the "N" word. Albeit, as a black man if a non-black were to call me the N-word, violence would most assuredly ensue and not necessarily so if another black were to do similarly so. This obvious double standards is called tolerance. Blacks do naturally and should as all other groups have more tolerance towards each other than they would toward another group; rightfully or wrongfully so. This is fortunately or unfortunately an aspect of our humanity. While at first glance this may appear discriminatory, but more realistic and accurately put it is called - tolerance.

The predominantly white Anglo-Saxon Judicial Criminal Justice System is a classical example of this disparate in treatment. empirical evidence, statistics upon statistics have revealed discrimination across the board - white judges are more lenient and tolerant towards white defendants than they are towards non-whites.

Probably to the bourgeois black intellect these double standards makes their "con" argument. As to the dangers, harm and negativity of blacks' continued usage of this nefarious word towards each other. Pointing out: 1). The epidemic usage of this word by non-blacks towards blacks and; 2). Its continued wholesale usage may promote anew the usage of this word towards blacks by non-blacks. That it will indicate that it is now O.K., chic and envogue to once again use this somewhat abandoned, near forbidden word.. Imagine if you will in a Courtroom setting a defendant stating Your Honor My Nigga; or in a church and the pastor stating will you Niggas move up a little closer; or someone addressing your elderly mother or granny as -NIGGA.

Those examples of prophecy do support the "con" argument, but constraint as a means of restraint is a form of oppression and cowardice, a surrender to a seemingly insurmountable problem. Logic and intelligence dictates that the word isn't the problem, it is the inglorious history of the monsters who coined and used this word to abuse, decimate and destroy the humanity of the Africans that is the problem.

In the atypical american mentality of easy and instant solutions conservative, middle-class blacks would have "us" believe that by blacks eradicate this word out of their vocabulary usage it will somewhat or somehow in

effect eliminate the cancerous scourge of hatred within the hearts and minds of some racist white american against New African Blacks - even black intra-racism. I'm sure those blacks who oppose the usage of this word would have an even more comprehensive rationalization for its cessation and condemnation of its usage by blacks,

I confess to having occasionally used the "N" word casually and in anger, having also witnessed other blacks using this word ad nauseum as a verb, noun, pronoun, adjective and as an exclamation; as the repetitive centerpiece and sole focus point of their discourse to the point of absurdity.

Needlessly to say I am deeply and grievously^{ly} annoyed as any other reasonably person would be at those blacks limited vocabulary and vacuous repetitiveness of this nonsensical word, especially in mixed ethnic groups; sensing their extreme discomfort and even my own embarrassment and disgust. Having witnessed this faux pas time and time again observing the disquieting disgust by some blacks and non-blacks; forced to endure this ignorant babbling. I, not unlike any other reasonable person, usually discount the speaker as ignorant, concluding that he s/he is unworthy of any further consideration, time or interest.

The "pro" argument is just as persuasive as the "con" argument is against - a vast assortment of rationalizations. Basically, those blacks who are addicted to the "N" word usage contend first and foremost: 1). It is their right to use that word and or any other word in any manner that they choose to do so. 2). They claim that their usage in most instances is harmless and in some instances an exclamation and a term of endearment. 3). They deny being racist against blacks, nor do they harbor any ill-will towards blacks. And more pointedly; 4). Their multiple variation of change in dialect - usage has divorced this word from its original, hateful, cruel, ugly intent arguing that sometimes in the history of a word, its meaning changes - even to its opposite - not unlike a pebble in being washed in a stream after a period of time it is washed smooth/changing in shape and diameter. Adding that: 5). Their usage is utilitarian, an exclamation and even playful. Seldom if ever their usage of this word the cause of violence or hatred. Suggesting that those in adamant, inflexible opposition to the "N" word usage by blacks need to let go of the past, evolve and move on - the holocaust, tragedy and trauma of the horrors of the days of the "N" word usage are over, history, dead and gone.

Notwithstanding my prior comments, when I genuinely listen to those blacks who have a proliferous usage of this word, who appear to have it locked and ingrained in their psyche, a somewhat exclamation of the first order. Then hearing this word spoken from those blacks I have sometime felt their A). Anger, B). Frustration with ameri-KKK's cancerous racism, C). Bravo - machism, D). Symbol of unity and, E). That they were just clowning around, etc, etc. In passing I have never felt intra-racism coming from one black towards another.

The "pro" and "con" arguments are equally postured and both representing legitimate, reasonable and valid points of view. This debate isn't right v wrong, rather right v ultimate right and this is where this debate empties into...in my opinion inter alias.

The "pro" position is one of individual liberty with grave political indictment against the New African Nation that "we" not unlike "our" forefathers have failed cowardly and miserably to bring this white v black race war and conflict to a just and honorable conclusion. Whereas, inter alias the "con" position is one of contemporary moral ethics, cosmetic

respectability and image building.

Logic, intelligents and maturity distates that a word is just a word, with no life of its own, powerless , blameless entity and merely a simple configuration of recognized alphabets. As noted before, we are not a monolithic people; , "we" are not all cut from the same clothe: There are black republicans, democrats, atheist, muslims, gays, hypocrites, Uncle Toms, etc. Even moreso, there are some blacks, especially young ones, who claim that they have never been the victim of white racism. Therefore, the "N" word has no history of negative connotation of painful psychological memories to them.

Here lies the crux of the debate. One side sees danger and the other side does not - a conundrum, a paradigm of perception. One of the opposition criticism of those who use this word is that they lack all respect for their foreparents who were victimized, brutalized and murdered by those who invented and used this word and; that they are grossly insensitive to the feelings of those who are still aggrieved by the memory of those savages who used this word against them in unspeakable racial hatred and oppression. totally ignoring the history and evil ramification of the "N" word in this country. Conversely, the other side's counter-criticisms is that those blacks who severely criticize their usage of this word are just bourgeoisie, pseudo-alarmist, who are not in touch with contemporay reality - that the past is the past, bad things happen, that happen to all groups and most all individual at some time or another - you simply cannot dwell on the past hundreds and hundreds of years after the fact - you weren't there, it most like did not happen to you - what is truly evil at this point in time is the "con's" conscience which is bothering them - guilt. It happened.

My criticism and counsel to those blacks who have an excessive use of the "N" word - is you're annoying, continue to educate yourself, travel and expand your cultural horizon and; get over your limited vocabulary.

Further, my criticism and counsel to those blacks, especially the likes of now multiple sexually accused rapist Bill Cosby, grow up, you first and foremost you right now have enormous and possibly insurmountable legal and criminal problems of your own - that you serious need to be focus on other than trying to imposed your questionable morals on others. You may be rich and now infamous - you don't own the New African Nation. We are many, completed, diversified, and multifaceted. We are a first people, the original people, the strong and personification of a survivor, the creme de la creme. Cosby need to be mindful that he acquired his wealth as a steppin' fetchin' buffoon for the pleasure and entertainment of white audiences.

In no uncertain terms 21st century blacks do not need protection from a jaded, obsolete, antiquated word. My advise to those blacks aggrieved and truly concerned is that they need to concentrate their frustration/anger resources/energies on addressing/solving the vast assortment of ills that the "N" word does and once represented. You eradicate the negative by increasing the positive; by enriching and enhanching the environment in which those "N" word usage blacks live in. What most assuredly isn't needed is a bandage over a cancer sore, a cosmetic, superficial, finger-in-the-dam, victim reeducation program of how to be a better victim and to suffer in silence, not annoying others.

Simply because you do not want to be embarrassed, well, shame is good, it serves a purpose. Just maybe if the New African Nation is shamed enough "we" would stand up and bring this four hundred year race war to a just

conclusion.

The "N" word is the extract-descendant of the "R" word(RACISM), it is puerile and moral cowardice of the first order for 21st century black bourgeoisie intellect to engage in an abjectly pathetic debate of reeducation and condemnation of those blacks for their usage of the "N" word. When the true cancer, the true cause of New African blacks usage of the "N" word is the "R" word. The true enemy of New African blacks in america is alive and well and has after all these centuries; not yet having been straight forwardly and soundly addressed and attacked. This neo-reeducation and condemnation campaign is a traitorous smokescreen to divert attention away from black leader - less-ship, and blacks in general strategy-less, complete failure in this multi-century old war against white racism in america.. One cannot identify the "victim" without identifying the "victimizer".

In many respect "we" all owe those Africans whose prolific usage of the "N" word in mixed ethnic groups and in their music our gratitude. For they have caused a resurgent in consciousness and intellectual debate of blackness and black self-esteem. Each and every time the "N" word is used, it need be a renewed opportunity to awakening and reminder to both blacks and non-blacks - that there is yet an unresolved problem of social diseased cataclysmic magnitude in america. All is not right, all is not well and we are not all O.K. It appears as if it is the instructive-intutiveness almost mystical driven need of many blacks to raise the "N" word up until the "R" word falls.

America must never be allowed to renege upon its promise/guarantees of equality and justice for all. Therefore, it is the unstoppable, never-ending duty of all New African blacks to declare war to the upmost in the civil crusade to ensure that while americans live up to its promise of freedom, equality and justice from oppression and discrimination for all of its citizens, voluntary and involuntary ones - and to that end liberation/reparation/independence and separation - with the establishment of the Provisional Government of the - Republic of New Africa.

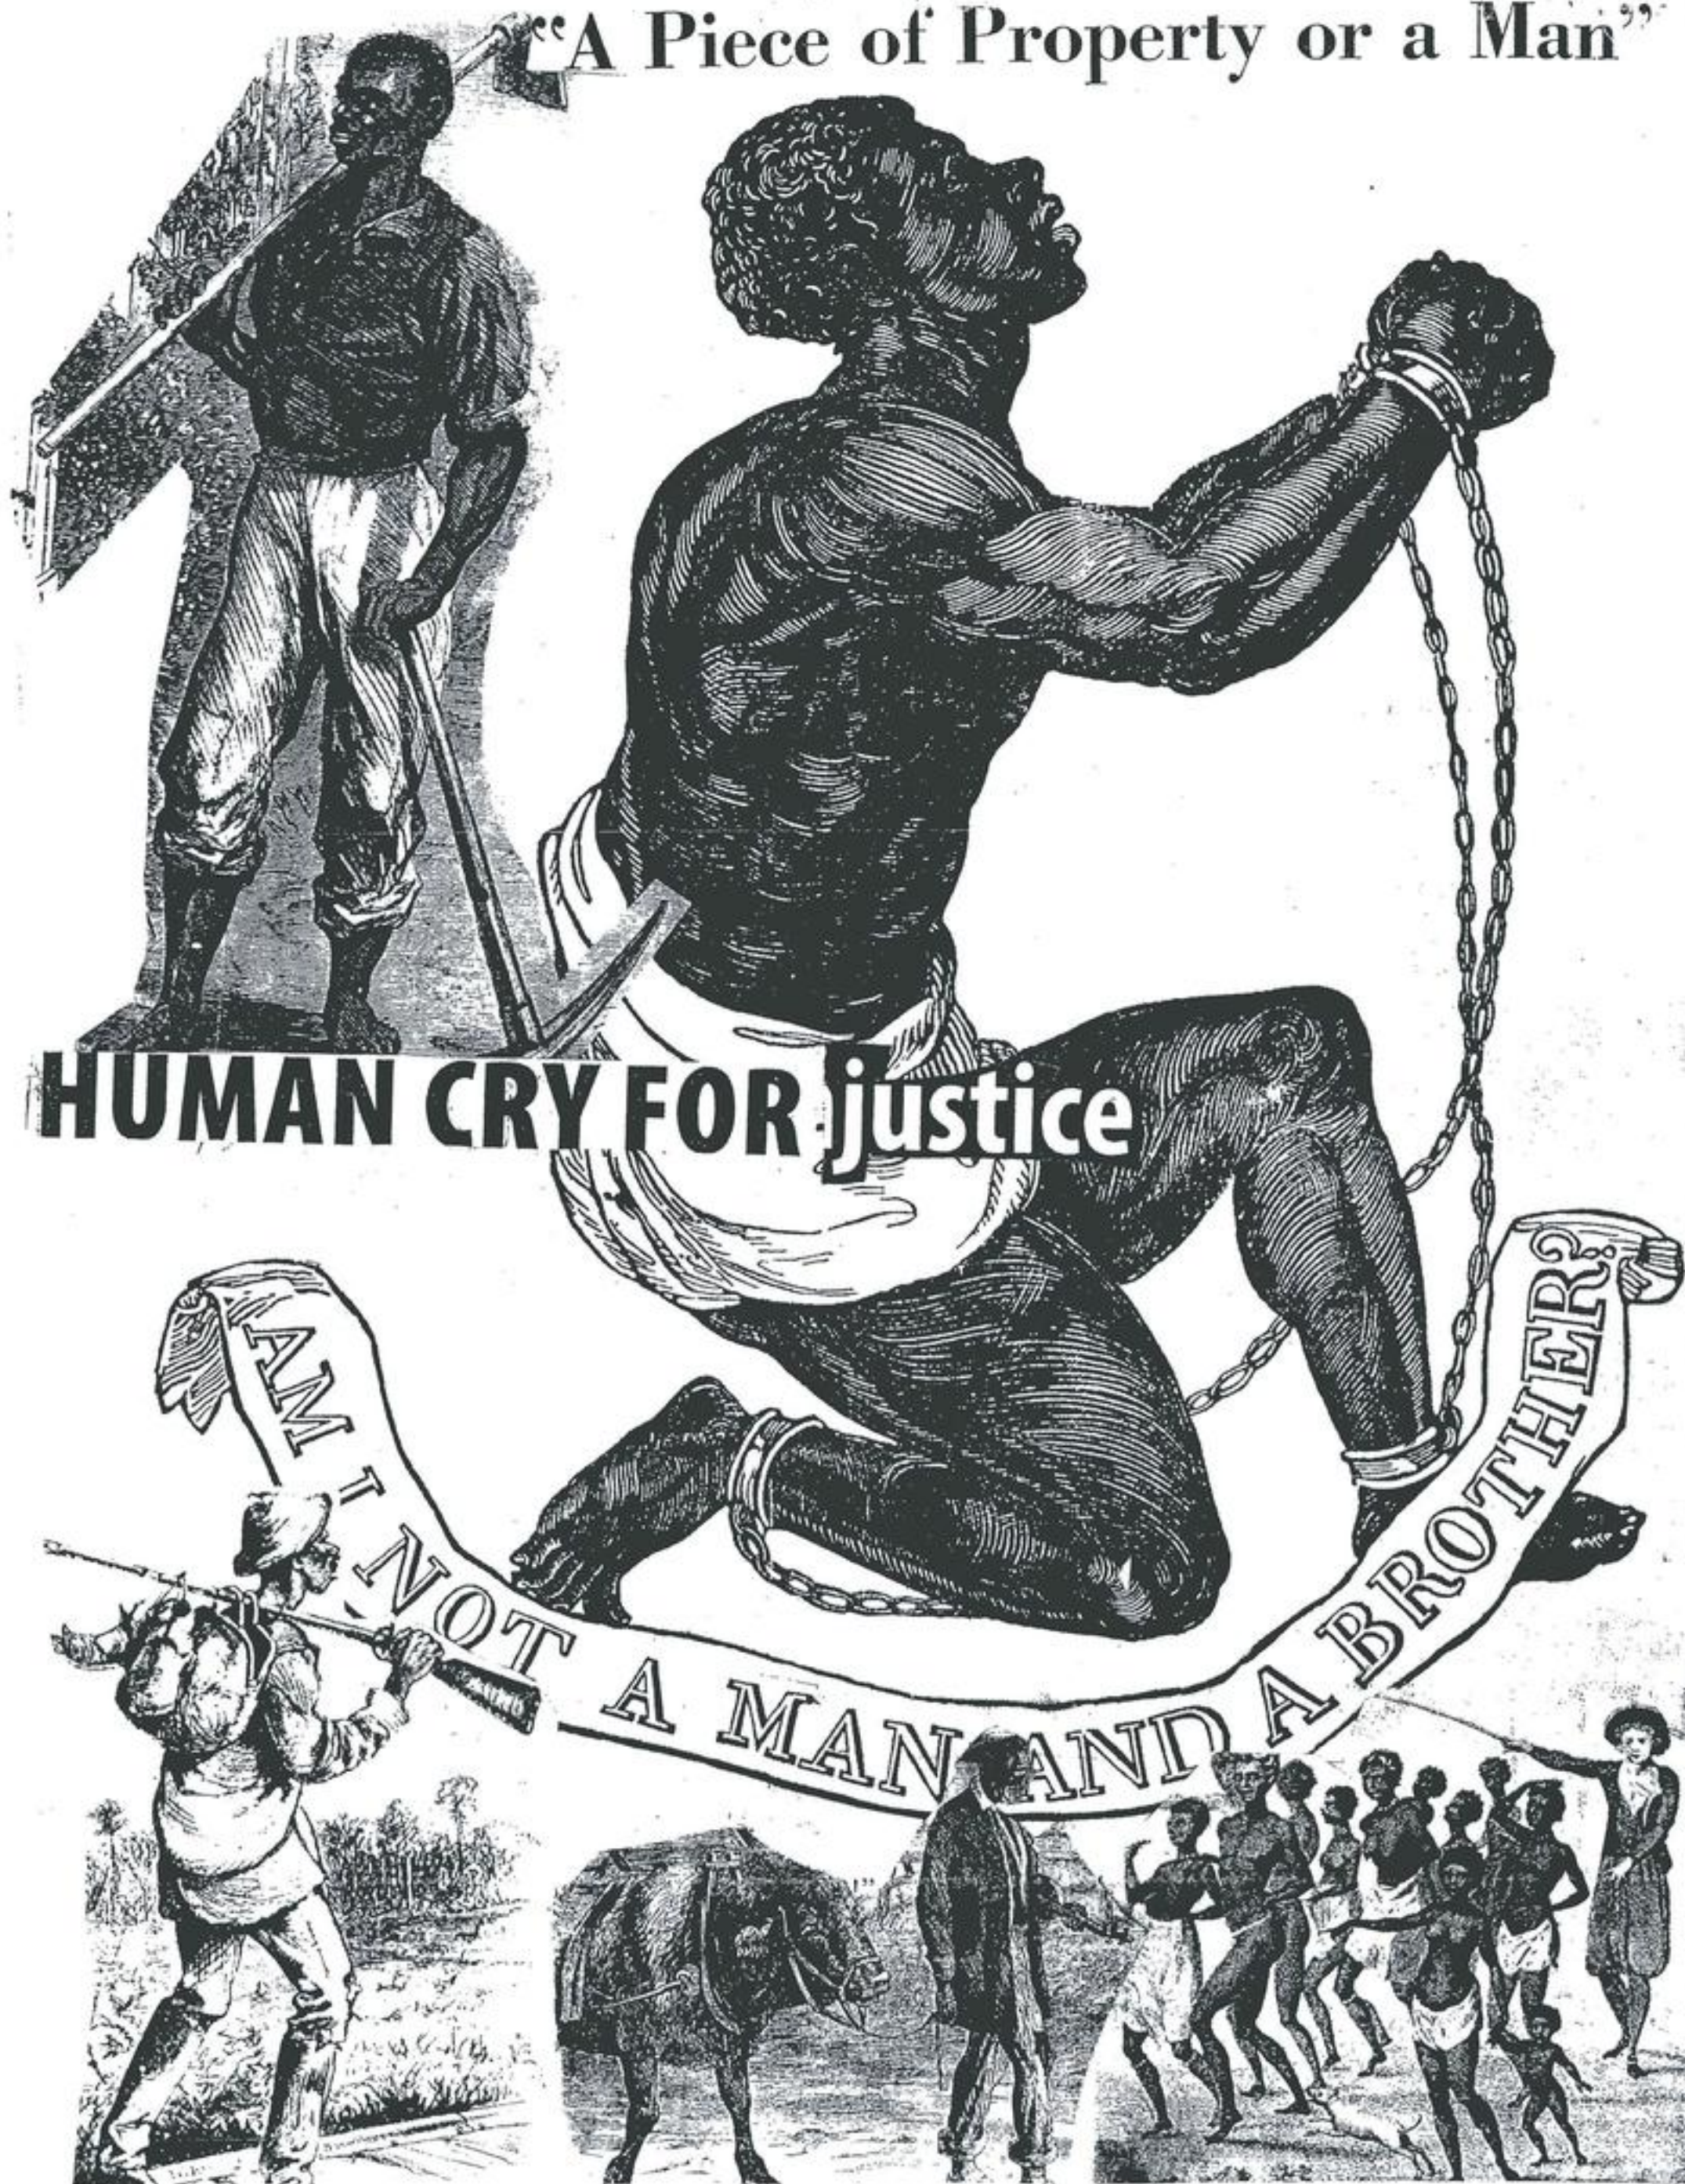

In parting, despite the anticipated sanctimonious outcry of disagreement to the above paragraph axiom - there is no Universal Right or Wrong., ethically and morally speaking as experience and the horrors of history has so painfully and clearly detailed. Ultimately right is whatever the individual says it to be and is able to impose it upon others. In this instance an individual has the right to use whatever word/s/ he or she chooses to use. Those who do not approve have the right to inclucate or force the other to cease and desist said usage...failing that the aggrieved party simply has the right not to listen by moving away from that objectable person and/or attempting to change the environment/conditions that is causing the excessive usage of this objectable word.

While a totally ignorant annoyance to some, this debate is the face of "our" unresolved cowardly unilateral surrender in this centuries old race war without HONOR, dignity or restitution - is insidiously dishonorable and this debate is a cowardly diversion. How can the despicable and horrible conditions that many blacks are force to live under and in by "silencing" a word. Silence in the face of the enemy is not only cowardice it is DEATH!.

matter symposium - to fully explore and address in open discussion - young black men
obsessive, nonsensical, incessant, habitual, pathological repetitious, mindless loudly, spewing of
racial-epithet, racism, intra-racism; identifying themselves as ninjas, towards others,
even non-blacks, grievously annoying and offending all non-racist within earshot.

Indra-racism is self-hatred, the cause of black-on-black violents, death and injuries;
domestic violets against black women and black children; and young black men in the dorms
screaming to the top of their lungs that black women aren't their preference; even when I was in
California, same, same. These young black men have been ignored and abandoned. and it has
been said that they are headed towards extinction. These young black men see themselves mainly
as predator,, recipients, survivors by any means necessary. They don't see a future.

~~Dear Warden Wainwright;~~

The subject matter here, is an unaddressed national shame and disgrace, a plague, an
epidemic scourge on humanity. Young black men 's racism of self-hatred, calling themselves
and other black men ninjas, black-on-black violents, murder; and turning against black women.

Unquestionably without any dispute young black men have been declared an
"Endangered Species" by the federal government decades ago.. Young black men in America
constitutes a unique "Special Needs " group suffering an unexplainable transferred racist
virus of centuries pass ; of now a mass psychosis, termed " BLACK RAGE ".

Warden you have umpteen federally funded programs but none focus on the unique and
specific need of these endangered young black men, who society for the most part have written
them off as irrelevant.. "WE" are not paying attention to these undereducated young black men
spewing racial hatred against themselves, black women and others. I am an Elder a sixties
"Black Panther" and Cleveland "Black Nationalist", I am pro-black an advocate for the black 7
man. It is my duty and moral obligation to bring this cancerous matter to your attention in hopes
that the slogan Department of Rehabilitation and Correction actually means something.

This cancerous problem of the black man must be addressed and solved by the black
man; a mentor, an Elder with real life experiences. I have facilitated many many self-help
programs in my thirty-years tenure as a prisoner. Even tho I am a strong black man, many
Warden have sat me in their office after discussion of my pro-black ism, allowed me to teach and
mentor to young black men and others. Young black men need a strong male black role model.
On the news their is compassion and emphasis for everyone and everything saving a black man
and we see the results of that disaffection; nearly forty-percent of all prisoners in America are
black men yet we are only about 6-percent of the population, Will you help Warden?

THE RIGHT HONORABLE ELDER,
Mr. Otis Lee Rodgers, Sr.

SUBJECT: BLACK LIVES MATTER SYMPOSIUM

Is an open discussion of the Pros and Cons to the N-word 21st century rebirth and continued usage by Black men. A discussion as to "WHY" Black Lives don't matter in America? Young Black men are a unique "Special Needs" group having been formally declared by the U. S. government as an 'Endangered Species.' This unnatural, unprecedented epidemic of "BLACK ON BLACK" violent s is a national crisis, a national shame and disgrace of grave national concern. America's "Silents" and refusal to even address this racial elephant in the room and in the nation is the problem preventing any solution to the problem. America's silents to this growing cancer is killing 'us'. First and foremost, black lives don't matter to many young black men as obvious by their wanton, senseless and purposeless injuring and killing of other black men at an alarming rate, disproportionate in comparison to any other group.

It has been surmised and observed that the crux and cause of black-on-black violent s is racism, historically by non-blacks, *limited access and opportunity*. That in part and for a number of other social injustices and inequities has now resulted into intra-racism, self-hatred of self; self-loathing, defeatism, self-destruction, contempt, disdain and a total lack of self-respect for self and others who look like them; a form of genocidal-suicide. A surrender.

Young black men seem to be obsessed with the nonsensical, incessant, repetitious, habitual, pathological mindlessly, loudly spewing of the poisonous-pus racial epithet of shouting loudly Ninja, Ninja, Ninja towards themselves and other black men and even non-blacks. Ninja word usage seems to give some black men courage and strength to act

violently with ^{out} any regards for another individuals safety, well being, pain and suffering.

Grievously offending and annoying all non-racists of all colors withing earshot, whose sensibility is repeatedly violated and attacked by those blacks sheer ignorant s of racism, racial epithet; whose insides screams STOP, STOP!. Most refuse to voice OBJECTION or even to complain; most out of fear and; others because of the sheer disgusting 'ugly' nature of the "Subject Matter". Those who know the American historical origin, meaning, context usage of this insidious coined word designed by by ancient primate, barbaric, racist savages/slavers of old; who used this word to identify, to rape the humanity, dignity and pride of the African people and; thereafter the African American people. The average person is aghast and appalled by these young black men lack of education, moral decency and social conscious who loudly and proudly call and refer to each other as NIGGERS.

And thus it is rape of the intelligent s and baffling, escaping the final bastion of comprehension that in the 21st century African American men are actively and actually , openly adopting, revitalizing from slavers of old, this NOW obsolete,, obscene and socially prohibited word without any morally, consciously understanding and accountability of what 'their' African ancestors had to endure at the cruel hands of slavers who called them Ninjas. In the 21st century many young black men have religiously embraces like a "Cult", the signature remnants of America's Dark, Evil and Vile Racist past. Habitually and additively re-birthing the most offensive and reprehensible word in all the English language: NIGGER, NIGER.

QUESTION: How does one lecture a stranger to stop annoying you with his self-hatred, racism, to stop denigrating himself and his racial epithet? And the real question that begs to be answer, "WHY" didn't the parents, relative, elders, teachers or friends of these young black men have educated and taught them of the history and ills of America's racism and the ignorant s of spewing of intra-racism

Inexplicably and unfortunately young black men have been stricken down; afflicted by the deadly 'virus' of racism, unexplainable transferred from America's slavers of old;; violent hatred of the African slaves. Now afflicting some African Americans people, based 'solely on the color of the black man' skin.

These young black men are suffering from a mass psychosis termed "Black Rage". These young black men feel unloved, uncared for, isolated and abandoned, discounted an.

These young black men are suffering from a mass-psychosis termed "*Black Rage*", feeling powerless, uncared for, 'Abandoned', discarded and helpless. 'They' are so angry, so full of hate and contempt with no positive or constructive outlet to release this 'violent rage' upon, saving themselves and other black men and black women.

Young black men are not only uneducated, mis-educated, but are also lacking in *Political Education* as to their rightful and constitutional DUTY as a participant and contributing citizen in American society - is part in part the source of 'their' self-defeatism, self-hatred of violent rage of intra-racism; having no sense of self-identity.

Consciously or Unconsciously, these young blacks have surrendered, give-up, unable to live-up to societal norms or standards. So, they now are contented and willing to live down to the lowest of the lowest... ; to every racial stereotype ever held against black people.

These young black men are suffering from a mental illness by their self-debasement, denigration and demeaning of themselves and others by racial slurs. The violent intra-racism of self-hatred has bled over into the 'rejection' and murderous Domestic Violents, Specifically against black women. It is very common to hear young black men scream to the top of their lungs, "*I WANT ME A WHITE WOMEN OR; I WANT ME A MEXICAN WOMEN*". Anything race other than a Black Women

RACIAL 'REJECTION' OF BLACK WOMEN " These ninja spewing blacks have 'lost' all sense of moral decency and civil behavior of civility. He views himself as an a Recipient, an outsider looking in; a Predator, a survivor, 'surviving by any means necessary'. He has chosen to live down to all the ancient stereotypes of the slaver and all the stereotypes of contemporary non-black Americans. He has rationalized he fate, that this is the only 'game' left to play.

By his Intra-racial slurs, he has Declared: I am that *NIGGER*, I have NO respect for anyone. I am exactly who you think I am. I am that Robber, that Theft, that Rapist, that Murder, that Killer. I am your worst enemy; FEAR ME WHEN YOU HEAR ME SCREAM OUT MY NAME: *NIGGER!* I have postulate that young black men scream out the N-Word in mix racial company for a number of reasons.

- 1). To shock, alarm and to offend non-racist,
- 2). To threatened, arose, intimidate and challenge the listener.
- 3). To establish kinship, identify and; the so-called 'term of endearment.'
- 4). But realistically as a cry for attention to be notice; and a disparate cry for HELP!
- 5). Moreover, There is a direct connection between the mindless, pathological, habitual, obsessive use of the N-word by young black men and Black-on-Black violents. .
- 6). Habitual mantra like spewing of the N-word hundreds of times a day acts as a catalysis 'trigger' to the brain releasing testosterone, inciting violent of intra-racial hatred.

BLACK MAN, BLACK MAN,

WAKE UP, WAKE-UP BLACK MAN, COME OUT OF YOUR COMATOSE SLEEP, STOP YOUR DRUG USAGE AND ACCEPT YOUR LIFE AS A "REAL" PERSON. STOP YOUR RACIAL HATRED OF YOUR BROTHER AND OF THE BLACK WOMEN.

cause of the epidemic of
BLACK ON BLACK CRIME

by Brotha Achim 18:21

It is by instinctive intuition and "solely" upon my own authority that I have concluded that the "cause" of the epidemic of intraracial violence, black on black crime is the blackmans and youth out of control, addictive epidemic usage of the N-word towards/against and about each other. I do not exclude the contributing factors, i.e., racial discrimination, the misleading negative influence of "Gangsta Rap Music", social, political and economical inequities and in a major part the Anglo-Fascist-Saxon criminal INJUSTICE system.

But I have concluded that the most damning cause of this cancerous behavior is one black calling/reffering to another as a NIGGAR. Notwithstanding, that words well know^hhistorical definition, one wonders:

WHAT IS THE NEO-BLACKMAN DEFINITION OF A NIGGAR?

All above the age of reasoning is well aware of ^{the} this infamous, insidious history of the inventor of the N-word. A word so disgusting, so repugnant to most educated, civilized, morally intact, decent minded individuals that they will only painfully and sparingly speak this word in its abbreviated form of the N-word. It has been reported by some historians that the coining of the N-word was an accident, a flux, caused by a mispronouncement of another word by an illiterate people; stemming from their attempt to pronounce Niger of the Niger River; by an ignorant barbaric people of ole the word came out NIGGAR; and the mispronouncement stuck and has stuck for the last four hundred years.

The N-word is commonly used by the lowest of the lowest, the dredge of humanity to demean, berate and destroy all dignity and to debase the humanity of the AfriKan people. Those sick, diseased, perverted sadistic, racist son-of-a-bitches raped, beat, tortured, maimed and killed blacks at will, depending upon their lunatic moods. Blacks were property, not unlike any other farm animal, sanctioned and protected by the Ku Klux Klan state. Those sociopathic, deviate, murdering, rapist cowards, raped and beat their black slaves for their sexual, perversed pleasure; and were simply looked upon with mild curoosity. A maddog slaver torturing,

lynching his black slave was looked upon with erotic elation of celebratory entertain ment.

Imagine that, a celebratory-picnic witnessing the taking of a human being's life; with picnic baskets and children in tow, so they could witness too, to learn the psychopathic cowardly art of murdering a blackman by a pack ^{of} wild dogs-savages, his parents, family members, friends and white neighbors; that this ^{was} a normal and acceptable moral behavior.

But of course to the savages of ole, a blackman was neither a man nor a human being; he was an animal, a piece of property and the owner had the legal right to do whatever he wilst with his property; the slaver's right of ownership over his black slave was protected by the corrupt, fascist racist government.

The beating, torture and lynching of a blackman gave a ^{temporary} respite from the monotony and dreary of those savages mundane, pathic, miserable, worthless existence.

Thos^e white savages rationalization in explanation to themselves and others was that this darkee must have done something really bad for the ole massa to destroy, kill his property. All of those unspeakable, barbaric, inhumane acts of murder, torture and lynching were legally sanctioned by the Ku Klux Klan ameriKKKan government.

We all know that a person's will to resist can be broken by a number of means, both physical and non-physical. Look at the history of women being tortured until they confessed to the lie of being a witch; most assuredly witches never existed. Many if not most people can easily be manipulated; unable to escape or defeat their antagonist; most will succumb, ^{or be} brainwashed and taught defeatism as a means of survival (i.e., the umpteen Pie-in-the Sky religions, governments, organizations and gangs, etc.) Long terms, even short term abuse of physical and psychological torture will break a person's will to resist; causing an acceptance of his oppression by his ^{oppression} antagonist. Hence the victim accepting his victimization, accepting his subservant status. The enhanced stockholm syndrome, the battered women syndrome; not unlike a prostitute accepting her status that she is just a piece of meat for another's pleasure. Of course,

we are now talking about a much more sophisticate, devious, aggravated and extensive form ^{of abuse} than those examples. Blacks have for so long tirelessly fought and resisted the status of being; and being called a nigger by those white savages for centuries; especially during the sixties civil rights era without conclusion or final victory.. And to the non-

their oppression

black savage, the blackman to them is and always will be just a NIGGAR.

Self-racism, Intraracism among the present day last two generations, ^{TO} including this neo-generation of young black "toughs" has been consciously or unconsciously crystalized into their psyche of these most unfortunate men. Who now call and think of themselves as NIGGARS (whatever that ^{word means} is?). A transforming of Interracism to Intraracism. Again what is a niggard and what is those young black toughs fixation, addiction and obsession with repetitiously using/saying NIGGAR, NIGGAR, NIGGAR, NIGGAR!? Endlessly, utilizing this nonsensible, historically ignorant word.

How exactly this Inter/Intra transfer of racism happened will most likely always remain a mystery.

This generation of blacks are considered the post-racial generation, yet they carry the "burden" of this centuries old black vs white race war into the future to its askew, absurded level of self-hatred. In deed, if not by confessional words; these young black toughs have unilaterally surrendered, declaring,

" I AM WHAT MY ENEMY SAYS I AM, I AM A NIGGAR; AND I TOO HATE NIGGARS!"

As is indicated by the statistics of black on black crime.

Some of you have overheard the psychotic rhetoric/litany of tirade of diatrbe of one blackman directed towards another, in anger and in play, and was most assuredly disgusted, e.g.,

- a). I will kill that niggard,
- b). I'll beat that niggard down,
- c). I don't bleep with that niggard
- d). We shot those niggard's up,
- e). That's "My Niggard"; or that "My Real Niggard" (a term denoting that he actually cares about this niggard, one of the good ones; not unlike the savages of ole, who had their House Niggard or NIC(HEAD NIGGAR IN CHARGE).

Many black utilize the N-word several times in one sentence as a verb, adverb, noun, pronoun, adjective and as an exclamation - to the point the victim in hearshot feels like screaming "Shut the fuck up!"

Once you have reduced a person, an entire group of individuals as A thing/object in this demonizing manner; not unlike a female being objectified as a ho, bitch, slut, tramp, doucebag, cunt, etc.; you are no longer talking about a person, rather an object that you care not for...

Many young blackmen in particular have simply accepted "Intraracism", that another blackman is just another nigger, a non-human, unworthy of human treatment; not unlike the thinking of the savages of ole, that a nigger is a non-human. And thus, to victimize another Nigger means nothing to them. Have you seen ancient pictures of gangs of white savages laughing, and joking in picnic fasion staring up at a lynched blackman gasping for his final breathe hanging from a tree with his penis cut off; the envy of the whiteman.

What has happened to the blackman who NOW has the hatred and psychosis of the white slaver for the blackman; by some inexplaineable "means" that hatred of the blackman by the whiteman has been transferred to this neo-generation of young black "toughs"

DEHUMANIZING CURSE OF SELF-RACISM

Not unlike suicide, self-extermination, blacks are engaged in every know heinous crime against each other, e.g., murder, rape, robbery, extortion, etc.,

The blackman who has etched into his psyche that they are Niggers; are Niggers and are suffering from stage 4 cancer of self-hatred, self-loathing Their prognosis is terminal - only death or possibly old age, if they live that long - may cure them from this psychosis.

I tell you "solely" upon my own authority that this neo-generation of young blackmen are suffering from a condition called "BLACK RAGE".

In response to the obvious question - what can be done to undo this curse, what can be done to rectify and release the blackman into reality; that he is not a NIGGER, but a man, a human being and somebody like all other men. That needs to stand up and take his rightful place in this country as a participant; that his citizenship rights entitles him to the exact rights as any other non-black citizen. These young black toughs, must turn their lifes around and do the so-called quote "Right Thing" unquote; to become a positive and productive member of his neighborhood and society in general; in support of his loved ones and family in particular.

These young black "toughs" must drop this suicidal AND SELF^{DE}-BASEMENT OF BEING A NIGGER and grow up and accept the truth that they are men and that there is no place in this country or world for a nigger (whatever that is.)

COMMENTARY(1): Ten years ago I wrote a treatise "THE NIGGER "N" WORD, THAT "I have never felt intra-racism coming from a black towards another.". I now retract that statement.
