Dear Mr. John Palmer Assistant Regional Director. 8/14/19

You told me, that you informed your secretary, that if she gets a letter from me, that she's to inform you. Well last summer I wrote you a letter, and it never even made it out of here. So I'm sending you an email.

The administration here, is not receptive to speaking with an inmate. So I'm making a last ditch effort to contact you. We've always been able to talk.

This administration seems to enjoy poking and prodding the inmates under their care. And the Warden here has belittled my friend in an email, when she filed a complaint about them violating the photo procedures 33- and Florida statute 847.001(9). All you've got to do is review the photos that have been rejected on my tablet over the past six months to see someone here is arbitrarily rejecting photos based on their belief ect, and not within the rules and governing laws for which they are to follow. When my friend here wrote a complaint to Tallahassee, they forwarded it to Warden Anderson, who told her that she shouldn't be sending inappropriate photographs to an inmate. But what's truly inappropriate is for him to judge her and belittle her, when she was in compliance with Florida statute, and 33- Florida Administrative Codes.

I just got four more rejections this morning. Please view them ,and you'll see the photos are inside the guidelines of the rules, and law. This arbitrary rejection and violation of the rules is getting very expensive these e-stamps are not cheap. Some of the photos have made it on to my tablet, proof of compliance, only to be removed later by this administration. I filed a grievance on this on Thursday July 18, 2019. For which they will not respond to. Which in and of itself is a violation of the rules and Federal law under 42USC §1997 (e) by rendering our grievance system ineffective.

And there's a few other rules that this administration is violating that I'd like to discuss. Wherefore I'm hoping you will talk to these people.

I'm not sure if you've seen some of the stuff that I've written lately, but I've touched on some serious issues, I'm expecting retaliation from this Admin. I'm willing to sit and talk to you, but within this administration there's no one to talk to. They want to do the Boo game and try to scare me, and as your aware that doesn't work with me. You and I have spoken in the past and had productive conversations. I'd very much like to sit and talk about several issues that need to be dealt with concerning our conditions and this administration application of the rules.

I thank you for your time and hopefully your help.

Sincerely Ronald W. Clark Jr. 812974
