"Juvenile Behavior"

By Ronald W. Clark Jr

Well here we go again, with overwhelming stupidity. Staff today Tuesday August 20, 2019 at approximately 8:00 am, made an attempt to get inmates to jump on me, because of what I've been writing. Over a dozen of my fellow prisoners come up to me today, on the yard, and said, "Watch out these officer's are talking shit about you and trying to get other inmates to jump on you." They've even said, If someone jumps on Ronald Clark, we didn't see it. And we will not spray you with mace." Look I'm not scared not worried and most likely these guys aren't fixing to do anything like this for these slim ball officer's! But this has me seriously p.....off!! This proves my point about how down right unethical some of these officer's are. And I haven't even begun to tell it all. These offices don't won't me to tell it all!! And their reading these emails as they go out, so they know what I'm saying. And they know I speak the truth. They need to start acting like professionals. The professionals their suppose to be ,and stop with this juvenile behavior. I read this to my fellow prisoners! I'm not hiding nothing! They can have their people print all my essays! This coward low life unethical act of trying, and that's all they could do was try to turn my fellow prisoners against me. They've tried this same tactic before. And they failed!!! Just tried again today and failed!! But it burns me up that they try something that's so stupid and juvenile! Come on and at least act like you've got some sence! Am I mad, absolutely! Cause I expect and demand more than this juvenile behavior from FDOC staff! Yes I'm mad!! I'll be doing a lot more writing than just this essay. I'll be contacting several senator's cause this isn't acceptable behavior! And its a violation of 33-208.002 Rules of Conduct. And trying to insight inmate on inmate violence, shows that you've got no business working in the FDOC. Its this type of unethical individuals that the FDOC needs to weed out from its rank and file. Make all these officers take polygraph test,I'll submit to one, to verify everything I'm saying here is true. Will they? No, because they know what they've done. They just opened a can of worms. I'll be writing senators House Reps and others about this. Someone is going to be up here to talk about this whether its Mr Palmer or one of our legislatures. And put an end to this juvenile behavior.
Regretfully submitted Ronald W. Clark Jr
