Subject: 9/11/2019 (2001) Patriot's Day

I noticed that yesterday (9/11) I avoided watching any of the documentaries or news programs that were showing footage of the 9/11 attacks that altered the course of our Nation and definately changed the course of my own life.

★

While I am responsible for my own actions, I am pretty confident (99.9% sure) that I would not be in prison today if 9/11 had not happened. There are many thousands of Americans whose lives will never be the same due to these attacks and the ongoing WW III that we are still struggling to keep from blowing up into all out war. While our enemies are attempting with all their energy to escalate the world into an all out WW III. It's right out of the Communist Russian playbook from the 1950's. "Destroy everything, then take over and rebuild it in your own way". Now it is the radical Muslim extreemists using the same methods and weapons.

★

We can never ignore or forget 9/11 and must teach are children why we are still struggling in this fight. Until the world unites, Christian and Muslim together, to squash the evil that has risen using Islam as a weapon of evil. Just like Hitler used Christianity for evil, 9/11 is not over...
