"IMPOSSIBLE"

By Ronald W. Clark Jr.

There's a quote by one of my childhood heroes ,Heavy Weight Champion Muhammad Ali who said.

"Impossible is just a big word thrown around by small men who find it easier to live in the world they've been given rather than to explore the power they have to change it. Impossible is not a fact, its an opinion. Impossible is not a declaration, its a dare. Impossible is temporary.

Impossible is nothing." MUHAMMAD ALI

This man risked his career, his his freedom and his life standing up to the bigotry of the United States of America. For he stood for something! He said what he meant and meant what he said. He sacrificed everything standing up for what he knew was right. The problem with people today, is they don't won't to risk anything. They want everything laid out on a silver platter, and make no sacrifices for achievements. Well if its easy, its not worth having. No its only worth having when you dig deep down inside and garnish that inner power to reach and achieve a goal that small minded people tell you is impossible.Well I say let the small minded people live in the world they've been given and come to accept. But for the rest of us, let's go explore the power we have to change this world. Because as I've said, Can't never could do a damn thing. Can't is for those who find it easier to live in the hell they've been given ,rather than stand up and change it.Yes a great man told us impossible is nothing. And I believe that. For we contain the power of endless possibilities. God bless those of you who knows anything is possible. And may God have mercy on those of you who exist in this world accepting what you've been given out of fear of loosing what little you have. And remember the power to change that, is within you.
