"LOCK'EM UP!!!"

By Ronald W. Clark Jr.

I see the prosecutors has recommended 30 days in jail for Felicity Huffman on that college bribery scheme. What will we benefit? The tax payers have to pay for the incarceration. They get nothing out of it. No one is going to benefit from it. Other than some prosecutor being able to brag about putting another American behind bars. So what do I suggest? Community service. Working in homeless shelters and soup kitchens. It benefits the tax payers and the poor. It'll teach Huffman humility. And I'm sure she's embarrassed about this whole incident. But incarceration is not the damn answer for everything! Its idiotic and down right stupid! Incarceration is needed for seriously violent offenders, child molesters and people who are a danger to the public. Felicity Huffman is not a danger to the American public. She's a woman that made a stupid mistake thinking about bettering her daughters life. This is the reason we have over incarceration here in the united states. And this mentality of lock them up needs to be changed. Incarceration should only be for the worst of the worst where its to protect the public. But using it for punishment....that's not the answer, yet it is the problem here in America with mass incarceration. There is other ways to punish people, fines, probation, community service, ect ect. But we need to get our mind right! And understand this mass incarceration, is not the answer!! Let's get smart about this and call for change. God bless you all.

Sincerely Ronald W. Clark Jr. #812974
