Subject: lyin on liquor

jus last night i found mysef watching TMZ,now normally i pass on celebrity gossip shows,but turned 2 it cause 1 of my 3 roommates had his tv on it n i could hear it do 2 the fact he didnt have headphones on even so...

what caught my attention was an interview with a guy i didnt recognize talkin bout his just gettin outta prison n doin the rihgt thing. said something i believe in -positive thoughts/actions. so i heard kevin gates out

well next was a costume designer racist rant, thought they might show some of his/her designs so i stuck around

well she went on 2 yell bout killin the deragatory term 4 black people n how she would kill n-words if it wasnt against the law cause she h8 em that much . later like is trendin in america she blamed it on "the liquor ' in her "apoology"

but heres the truth we need 2 know bout alcohol . alcohol can't make u do nothing that's not already in ur heart/subconscious. just the liquor makes u have less power 2fight the impulses. its tru.

example ; person gets drunk n cusses u out then later says "i did'nt mean it/i dont feel thsat way it was the alcohol talkin" yet promise the person has those hidden feelings bout u  
some people get drunk as a preordained excuse
