The silence is understood.

My sincere apologies for the burden of my blogs.

You all have lives which demand far more attention than I warrant.

Your time is of the essence out there.

And so I won't dare waste it
with the travesties of justice reports
accessible everywhere else.

The daze of tilting at windmills
has concluded with the end of contention.
I simply don't believe in that make-believe world.
And so consequently, I'm FREE.

Free To BE me.

I AM a Philosopher

I AM a Artist

I AM ... BOUNDLESS!

And I owe this life of mine to tax payers.

You alone made this life possible.

Thank You.
