"MORE ILLEGAL ACTS BY THE FDOC"

I can't believe the bunch of low life thieves that they have working for the FDOC. I come back from RMC, only to find a lot of my personal property has been stolen. My guess is it was retaliation, acts of reprisal for everything I've been writing and doing around here. So this is just one more childish juvenile stupid retaliatory act. Which is only going to motivate me to write more and push harder for reform. And if anyone in this administration really wants to stop me. This is how you do it. KILL ME!! And if not, well you can't stop me! I'm going to push for change. I'm going to push honor and integrity into your positions until I take my last breath weather you like it or not. So short of killing me, I can't, and will not be stopped. The only thing you do with these illegal acts, is motivate me a little more each and every time.

I did underestimate their stupidity. Several guys said, if you have anything you don't want them to steal I'll hold it for you. I said "Their not going to steal my stuff, not right now, after all the heat I've got on them." I just don't learn do I?!! They stole all my writing material, stamps, envelopes, paper and even my address book. Which goes way too far. Want to play with me? I'm the right one. :-) Cause now I'm going to write even more and put more heat on them. They've got to eventually realize, that I will not be bullied by low life criminal correctional officers. I love the challenge! And I will expose what's going on here. As I said ,Short of killing me, I will not be stopped! Yes I've got a hell of a fight on my hands, trying to instill honor and integrity into a system that rejects it at every turn. But anything worth having, never comes easy. Stolen property is the price I pay for standing up to the unethical FDOC. Please help me fight the good fight and push for change. God bless you.

Sincerely Ronald W. Clark Jr. #812974
