Don't worry! My legs
ain't as atrophied as they
appear in this photo; but,
I am as de-pigmented as
I appear, from years in seg

I weighed 210 lbs &
was 6'4" in this photo. So,
I put on 25 lbs, & one
inch quickly after being
released from seg - shows
how seg/RH sickens a
person; and conditions
ain't much better in g-p.
