Subject: WW III

Let's be real, it's just a matter of time that we fall into WW III and it is due to the grace of God, much blood shed in theaters like Korea, Vietnam, Iraq and Afghanistan and the hard work of thousands of Patriots in American government since WW II that we have experienced a general peace for 75 years.

*

If there is civil unrest and a massive uprising in America to protect Mr. Trump and his ideals, verses the ideals that American freedom demands...

If it leads to bloodshed and military units splitting up...

God forbid if it lasts more than 6-months and we start looking like Syria...

*

If we fall into a civil unrest (this ALL falls on the words and actions that President Trump will take in the next 6-months. Or the next 4 years if he is re-elected)...

*

I forsee that North Korea will quickly invade the South. Russia will take back the European countries they once had and "daesh" (ISIS caliphate) will quickly grab the opportunity to cause havock in Africa and the Middle-East. If civil unrest in America becomes violent and lasts more than 6-months we WILL be in WW III. Get ready America!! What a shame that 150 thousand experienced, patriotic combat vets have committed suicide in the last 15-years because "America" has turned her back on caring for our veterans. Now, our children will have to fight.

*

God help us! wdl
