thanks 4 bein chipper despite bein in a hospital bed. r u better now. jesus can fix it,he is the great physician .

trust me nething u feel comfortable sharin wont bore me,no matter how small the details . rather hear bout the details of life than the things i have 2 here in here like the n-word,b-word,threats of violence.people rappin bout killin people,arguments bout what inner city is the hardest/has the most murders/most likely 2 get u killed  
course boys from chi-raq think they all that ouch!

this will have more parts

love his early music like,when it all falls down, jesus walks with me,buy me a spaceship... can tell he was gifted with a unique perspective well as verbal word play n the ability 2 rap bout ne subject. prayin that he gets there. will say that i did wonder if his jesus was a publicity stunt... mind u we don't have the media stuff 2 get the full story..

happy sunshine

it's football day in this enviroment so the green bay packers on every tv...cept mines. like football but i prefer 2 watch the dallas cowboys though they not playin that well as of late..

well i understand ur perspective on kris bein the matriarch of the kardashian family n the outrageousness regarding her purse prices. i feel the same though i wasnt always of this mentality ,the change is truly gods fault :)

so heres y i used 2 worship \$ n possessions...

grew up believing that \$ n stuff defined u as well as who u dated. that being the case i penned me an american dream that included buyin my moms a house. 2 do so i planned 2 b a dr,but over time this dream was corroded in favor of fast \$. meanwhile i found myself by buyin designer brands i could barely aford. lord knows i'd spend my whole kfc check \$220-ish on a \$145 pair of nikes,matchin shoes strings ,socks,t-shirt,pants,etc... this got kids 2 pick on me less n got me new 'friends" n the attention of girls (what boy in high school doesnt want that) so it is 2day the american dream makes us live nightmares n have mis-priorities even i jail. men in here with kids spend more money on food than they kids...

more 2 come..

so as i was sayin...

people follow the Kardashians etc n buy what they buy /wear/create so as 2 feel a part of some thing . by wearin what they wear etc it allows u 2 feel a parta somethin. allows u 2 identify as 1 of them. same as with sports teams. people use the verbage "WE lost ...WE won... WE sould trade/get ...WE goin 2 the big game..." some will even fight u attack u or worse 4 makin fun/talkin baad bout their team. some r even like this overseas with soccer.

4 me \$ is better spent on people . my perspective is that \$ dies. as such i plan 2 use its perishableness 2 impact lives 4 eternity. like feedin n clothin the needy. n usin \$ 2 self publish books n stuff that tell people bout jesus. only got 4 outfits in here (4 the last 23yrs) so i know now that life aint bout havin the most clothes, though i am a clothin designer. in the end geting \$ 2 design clothes will help me reach those in my commmunity. its a robin hood theory of sorts. i can sell design 3 big brand comps then use the \$ 2 bless the poor who could never afford 2 wear gucci,prada,jordan,hermes,etc. god will bless me 2 bless others. amen.

thanks 4 the history lesson on slavery n prison labor. knew it was a connection but 4got exactly what it was. yet we see how slavery got legislated where exons r the new slaves. specially in the south

feel u on datin. i been through the rigoamoro plenty of 1-sided relationships. or it was lop sided 1 way or the other. where one of us had feelings that weren't mutual. se now that i had been lookin 4 the wrong thing in relationship not necessarily character but a pretty face/body not necessary beauty on the inside. sorry i was a child once.

now i understand /agree with arranged marriages of sorts. not forced shotgun wedings, but more hy this person is spiritually compatible with me. i believe now in "ebb n flow"/chemistry special in person

congrats on over 20yrs of marriage i been married 2 prison that long :(

hey check out a book the 5 love lnguages

respectfully

well the generational curse that's on American blacks is still alive n well. we still regarded as fun, entertainin, n low down.

believe the violent dangerous volatile narrative came into play after slavery was eradicated . mind u according to books/movies at some point masters pitted slaves against each other 4 sport. yet they weren't considered violent when they were hurtin each other at the behest of their owners. eventually things got flipped 2 kinda say "heres y we need slavery" we also know there were laws designed 2 keep blacks from freedom/still in slavery. this correlations is still ingrained into the psyche of prison. prison emasculates u /makes u dependent on others which helps foster recidivism as some men fel more comfortable knowin their needs r met. yikes. some come back cause they caught in the notion that life is about \$,sexxx,n material things even at the risk of they fredom. i aint gone b able 2 do it. god showed me 2 work on bein independent /depend on him. amen. so i plan 2 have my own business n work from home. u dont have 2 hire me - i'll make my own job. amen. already gettin prepared . seen a show called "start up" that show cased a home based cross stitching business that makes \$300,000 a year doin family portraits n sellin books

sounds like a plan
