Subject: IG Report

Listening to the excellent arguments during the IG Report.

The facts are clear - Russians actively pursuing disruptions of American elections. This is scary and a modern day "act of war".

\*

Why are we trying to distract from these facts and saying " it's all an anti-Trump conspiracy!" It's a sad reflection for "my" Republican party. They are defending the enemies of our Constitution. They are showing misguided loyalties, placing the position of "President" as being more important than the American people, American values, American freedom. When Cruz was running against Trump I was in his corner. Now he is sounding more and more like the "fearful, kissing ass, say anything to protect Trump" camp, but in other words... Saying " F\*#! You America!" Barr is a disgrace-shame on him.

\*

Listening to Cruz and Lindsey very energetic arguments. Great job. The Dems had good, professional counter points. Hold those that did wrong, or biased accountable for their activities. Don't ignore the fact that the Russians are attacking us.

\*

HOW MANY OF OUR CONGRESSMEN / SENATORS ARE IN THE POCKETS OF RUSSIA??

\*

This sounds so much like the trials of Al Capone. He was literally getting away with murder, but was angry when he was caught and claimed how unfair the process was by using tax evasion as a basis to convict him.

\*

How similar sounding are the arguments today...

How long have the Russians been plotting and working on these tactics?

\*

It seems late in the game, but thank God these facts are coming to the surface. We will recover. Our system is self-healing. We must nail down these Russian attacks. My vote is to fry all their grids, power and computers for 6-months prior to the 2020 elections. F\*+ # em... They want to play games, we need to have the balls to stand up to these attacks.

\*

Our government "elected" officials sound more and more like the Nazi's in the Nuremburg (sp?) trials, i.e. "I did nothing wrong, I was just obeying orders."

\*

Let's weed em out America
