Subject: Subtle threats within hearings

I have counted at least five (5) times now (in the weeks of hearings) that I have heard my fellow Republicans drop little, subtle comments that the "Democrat Officials", especially Polosi and Nadler should be (or will be " impeached", "tried" or "imprisoned"). I have NOT heard a single Democrat make these types of strong arm threats to "back off our President". The message is clear..."we will win and when we do, we're coming after you and your family. You better change your vote."

I pray courage and patriotism stands the ground. Thank God we don't have bullets (yet) and our system is proving it's strength to the entire world and for posterity.

These are perfect examples of "Trumpisms". Don't openly attack, but subtly hint at something with the knowledge that you have the power and people that will do your dirty work. Muscle in the background. e.g. Cohen, Stone, Barr and Guliani. These are the weak front men our President has thrown under the bus. I fear the professionals we do not see. Those behind the scenes with the skills and weapons and desire to do harm!?

This is so BIG America!

Pay attention.

Our future rests on the outcomes of 2020.

America has gone through much worse. We will survive this. This is historic..
