Subject: 63 Million American's

I am impressed with our Congressmen, both Republican and Democrat, and the freedom of our Democratic Republic that we can argue and debate and sort out truth...

★

What next?

I am not concerned about our process...

What does concern me is the confidence of the Republican Congressmen that "63 Million Americans" support and want Trump to continue his actions. They say, "Why are you making such a big deal of all this? Look at all the jobs and benefits of this Presidency!" They say... "Who cares about this little Ukraine issue"...

★

If it is true and accurate that 63 Million of my fellow Americans will continue to "lift up" a man like Mr. Trump with his lifelong history, proven over and over, as a self centered, greedy, corrupt, cruel hearted man with a total lack of Integrity and Honor as the "American beacon" and what being an American leader is about...

★

That concerns me deeply. It is not personal, or a "dislike" of Trump (I wish he was a man of Integrity) It is fear of what horrors and violence where a man like President Trump will lead us. It is about a corrupt heart and using mob tactics and having some mysterious closeness to our main enemy, Russia and Putin. But really, what is my main concern is the American enablers that "want" this. I didn't believe we could be sliding toward a civil war or a dictatorship until now. The Bible says the world would go this way, but I didn't think we were this close. 2020 will be revealing.

★

What is next for our Nation if this is the model we seek to hold the highest seat of government power? I do worry about 63 Million Americans. That is an Army, that is a civil war.

Lord, hear our prayers...wdl
