happy greatness  
that just came 2 me:)  
got ur letter 2day 12-30-19  
happy new years eve,eve!

yeah i have no idea where the UK or London at! not really a geography guy. not even sure where im at now! somewhere between Iowa,Wisconsin,Minnesota,Africa n Afghanistan ! i could be where!

was shock 2 hear that ur current location isn't a great place 2 live. i assumed the UK was the place 2 be minus the terrorist on buses n what not. but what do i know all we get is scenes of the royal palace n the freshest royal baby of Harry n Megan! but i dont keep track of all that.  
my daughter royalty in her own right  
(so run ur husband)  
have seen some of England? on a show called ? that takes couples house shopping. if u can google a tv channel called "dabl" n i'm sure u'll see a tidbit of the show i'm thinkin of. mayb i'll find out the name in one of the parts that will accompany this..probably 4 or 5  
well i know all bout livin in neighborhood with gangs,high crime n the like. couple houses i lived in in Racine,Wisconsin had people murdered i them/outside them/around them shortly b4 or after my family livin in them. ouch.plan 2 explore this osmosis of ecology in my memoir  
bout 2 do some writin on it now  
god wilin

greetings again

so as i was sayin...

1st found out the name of the show is ESCAPE 2 THE COUNTRY it comes on a tv channel "dabl"

i've found out that kids r vulnerable 2 "country line gangs" n gangs in general simply due 2 the fact of an identity crisis as well as a outlet 4 male agression. ask me how i know ! ne who joinin a gang gives the child who's lookin 2 come into himself/herself a sense of self-worth n identity. so in the culture the WHO R U QUESTION comes out as "WHAT U IS" (WHAT GANG U IN) as well as "WHERE U FROM?" (what street/hood u claim as ur reason 4 livin...) so kids say they r ms 13 ,folks,vice lord,blood,crip,outlaw (biker gang),klan member etc. this becomes ones chief identity the one one pledges 2 die 4. says it in tattoos n acts of violence. mind u gang members dont truly value their life reason they so anxious wilin 2 die 4 a gang street hand sign word etc...

more 2 come...

so...

i've also seen how adults manipulate kids, who look for approval /acceptance & do the dirty work, especially when there's a threat attached...fear is a powerful motivator

just seen it in here (do it now or get a ticket!)

my heart goes out to those who lost their lives/families that have lost a loved one to gang violence. i've almost been in both boats!

well in wisconsin the law says a 10yr old can get life in prison, even if an adult put them up to it! mind you the adult will get life too! the rationale is the fact kids can get life is supposed to dissuade adults from using kids to commit crimes. yet this thought process fails in the face of common sense.

if an adult cared about the child truly, they wouldn't ask/make the child do a heinous crime in the 1st place. in racine they had to give an 11yr old back in the early 90's till he was 25 for a murder he committed at the behest of some older vice lords (american gang)

so how much time do you get for a gun over there?

sure you heard of all the gun lobby over here. at the end of the day the second amendment will keep america in its current state. doubt they will ever ban assault rifles/weapons etc. in their talks to eliminate those guns they never talk about the black market -hard to regulate that! mind you where i'm from it was vietnam vets & cops selling/trading guns to gang members...

more to come

im back

HAPPY New Year

u shall do great things n succeed

nature is weird but we can in fact learn alot from it . i learned alot bout coloring n colorways by lookin at books of fishes. truly god is the best colorer. if it matches in nature it matches 2 me. did lotta shoe designs just from pics of animals. dont seahorse males also give birth 2 the kids? i could b wrong but i thought some animal has it where the male births it! i could b absolutely wrong! didnt know pigeons were monogamous but i can appreciate it. if only... another thing i learned from the animal kingdom is that animals dont take more than they need. they eat only when hungry! animals tend not 2 have an obesity epidemic . cows eat grass but thy dont pig out on it mind u its readily available . i love their loyalty n how they operate off of instinct. cool how all the babys look alike yet a animals mother can distinguished 1 from another. i see god. just like friday i seen a squirrel run str8 under the chain link fence. i thought who told him he could fit?

not like he gotta mirror 2 tell him how wide he is or hasdiscrnment how eide the fence is! i see more god.

reminds me of a book i read by TD JAKES - INSTINCT he teaches a lil bit bout animals n how we can apply it2 our own lives. gone have it in my library upon release . sooner if \$ n oppportunity allow

also want 2 read books on ecology

mind u nature is the circle of life

everything leads 2 the life of something or someone else,even manure

nothin in nature has an acidental design

morre 2 come...

im back if i dont finish this time will only need 2-3 more cracks at it

i admire ur strength and courage 2 pull ur own wisdom teeth Ouch! so u had nothin 2 numb the pain! truly women havhave a higher tolerance 4 pain .hated even getn my teeth pulled thru the ole "just eat n apple n it'll fall right out" routine dont miss that part of childhood!

well i hope things go well. yet i have no choice but 2 pray 4 u 2 have a miraculous healin take place,so u can save\$ on bills n "see god"/experience his awesome power over nature/our bodys. amen he still heals. ask me how i know. done got this blessing several times just in the last 6 months. had digestive issues...sciatic nerve issues. mind u we have 2 pay \$7;50 4 medical treatment while makin sometimes as low as 5cents an hour. which totals like \$2 every 2 weeks less u owe fines n fees. prayed 4 god 2 heal me cause its also legislated that nurses n drs can violate the hypocratic oath so we get the bare minimum treatment (ice n aspirin n the excuse "u just getn old")

well promise u god my medical advancement in this archaic environment . plus the bible says i can live up 2 120yrs GENESIS 6;3 PSALM 90;9-12 tells me its a blessin 2 live 2 70-80yrs n PSALM 91;14-16 says god is able 2 bless those he find pleasng with long life guess im gone have 2 take it i have yet 2 live

eventually everyone will no i'm the guy that did time,either way. im not gone hide it,nor am i gone brag about it,like its a badge of honor or courage. i will talk openly n honestly bout what i did,y i did it,n the dire consequences that followed. i will defend myself maintaining the position that i am not nor was i born inherently evil/bad. i wanted 2 b a dr growin up,wanted 2 marry tyasha,have twins,a lamborghini,big white house,n buy my moms crib,even discover a cure 4 aids! but i went astray cause of events in my life that taught me 2 harden my heart 4 survival n self-preservation sake. ouch.

my experience means something as it showed me who i am n my destiny/callin/life purpose TEACH. also bein here caused me 2 look at me n learn 2 appreciate ME no mater who doesnt. learnt bout how 2 overcome peer pressure n advers environments,n cope while runnin on 2- 3 hours of sleep if that. yeah i got entrepreneurial blood. so im gone do motivational speeches etc even have a life coach inside me :) so im constantly plannin how 2 make the most of ANTOINE . hence the blog,the memoir thats under construction etc.

yes the programs r not all that  
made my own

well se u soon

xmas was great talked 2 parents n nephew  
no gifts but  
did get a lamp

so research told me it takes like \$100,000 2 get a run of 10,000 pairs. most expensive part is getting the last made (mold of shoe) so figure id cut my investment cost by investing in art suppls n designin shoes 4 the well known brands. nike adidas sent some stuff 2 under armour years ago but never got a response. maybe the "this letter was mailed from the wisconsin prison system " stamp scared them! maybe they thought i was tryin 2 run some kind of hustle /scam. i'm not mad at em. get at em when i get out n can establish myself professionally. learn more bout shoe construction ,materials,n the lingo. also gotta get a surface pro 2 make designin easier. specially colorin... last i checked can sell a design 4 like \$10,000 work 4 me as i'm like \$100,000 in debt. whew. got portfolios on the street waitin 2 b shopped around. thanks 4 the encouragement . i shall suceed. 2day i wad blessed 3 times 2 hear bout people who started clothing lines (serena wiliams a christian lady in the salvation army magazine) sure i can work 4 1 of them,maybe both! do plan 2 do my own line though...

yeah i remember sagging ,its still popular in here,while bein a bit excessive . know ive done it since i was like 8. h8'd the way pants fit on my hips so i always slid em down like 2 inches. there thats better! meanwhile i'm great at creatin my own style/trends

still plan 2 supplemental income by writin books

one more 2 come...

yeah crime always been a best-seller .plenty people got paid of OJ,2PAC,BIGGIE,JACK THE RIPPER,CHARLES MANSON,SON OF SAM,etc

thanks 4 calling me an ex-con its truly how i see myself :) even though still in. i'm so done with prison. retired like in 2007.

dont recall all that i wrote which provoked the question;y as an ex-con u shouldn't have ur experience mean something ,than something u have 2 hide?"

i will say this - america is different like that. provided i was famous when i caught a felony it would b more socially acceptable . i would have been able 2 afford a high price lawyer who would've came up with a psychological n legal reason y the book shouldn't b thrown at me. jay-z blatantly stabbed a producer in a club n got probation,not 75yrs or attempted murder charges... because of how things are i have 2 hide my scarlet letter long as possible just 2 get equal opportunity from employers n neighbors alike,but that will last as long as till they hit google. its not so much a shame or a desire 2 hide my reality just i deal with it. n others cant.

understandable cause hearin somebody robbed n shot some body aint easy 2 hear. nor do people out the gate accept u. orange is the new black but blacker if u black. even in here staff have cringed readin my charges ;attempt homicide,robbery,possession of thc with intent 2 sell

1st response

who u try 2 kill

answer

nobody
