"EMAIL SUSPENSION IS OVER"

I've gotten cards from several of my friends talking about Jpay's emails aren't working. Well they suspended my emails for 30 days. Actually it was 45 days. They just turned it back on, on December 22. I know a lot of my friends follow my blog and get alerts. So here's the deal, you may need to refresh your account. You may need to do it several times to get it going again. So if your having problems try this. What they did here was straight BS anyways. But this is the slim ball FDOC, so what can you expect from such a low life unethical Dept. My goal now is to get 33-602.900 Kiosk and tablets implemented. The rule has been in development since November 17,2017. Which is absolutely ridiculous! Its time to sh.... or get off the pot! So anyways other than fighting for that, I'm about done with all this other stuff. Guys aren't doing anything to help the cause. I take all the heat. And the staff blame me for making things hard, and the inmates follow along with them. Oh its still getting under my skin, like their not giving us rec like their required to do under 33-601.830(7),(j). We got one rec 3 hour rec last week ,and the week before. Their also not doing make up recs anymore,and there's so many other issues. Most of which you've read about. But I need a break from this. So that's where I stand. Anyways I hope all who are having problems can refresh and get back on track.

In peace, love and friendship Ronnie
