

Impeachment Inquiry

How can a president block Sup. Subpoena witnesses from testifying without a repudiation from the Law of Land. But your average citizen did that they would have been under somebody's jail. written by Jennifer Johnson

The voters

It doesn't matter that election is coming up. Because the president succeeded in 2016 election interfering with Hillary Clinton. Now he ~~is trying~~ has attempted with the 2020 election only the time he got caught. So why allow him to continue to disrupt our democracy. Let's be wise but not in our eyes. He don't deserve to run another election. If he cared about American people or anyone he would never do anything to hurt our democracy. The man has acted foolishly before he got in office. An continue foolishly during his presidency. Come on people let's not be unwise.
