

It stands to reason that if anything is going to be different in our life, it should begin at the awareness stage. When we raise our Awareness, the magic of life starts to show up and the abundance that is all around us comes into focus.

Freedom of Choice, is the truest freedom there'll ever be. DO as Thou Will, is the whole of the Law of LIFE. The Key Ingredient of personal responsibility is Choice.

Animals respond to a stimulus because of instinct or **habit**. For us, however, there is a brief critical moment of decision available between the stimulus and the response. In this moment we make our choices - consciously or subconsciously - that influence the course of our lives. Numerous times each day we may come to that fork in the road where we must make a Choice. In that brief moment between stimulus and response we can choose to be a Victim or a Creator.

**CRITICAL**, 1a: of, relating to, or being the turning point  
2d: being in or approaching a state of crisis.

**CRISIS**, [Gk. krisis, lit. decision fr. Krinein to decide]  
1a: the turning point for better or worse.  
2: a decisive moment  
b: a situation that has reached a critical phase.

Here's the Key which helps us get through every Life Crisis:  
Is your life purposeful or purposeless? Our Purpose in Life is what makes all the difference in every critical moment of decision. Our relentless Awareness of Awareness determines the choices we make.

Be blessed. The Choice is yours.
