Love Note

My Dearest Love:

1/26/20

You are the happiness in my life - the sun I toil under, the moon I play under. The one who brings me back to yesterdays love songs. Yes my love were were always downtown somewhere at midnight dancing in the warm summer ~~nites~~ and on stormy winter nights. We weren't just walking aimlessly .... we were walking together ♡ moving toward todays destination, never looking for trouble it just seemed to have a way of finding us" Yes my love I do remember the 'Dairy Queen' on West Cap. & Jefferson and I do remember bringing home junk food for Cellar Birds" I don't remember any little boys unless you're talking about James & Tim" Teddy was just a baby. Just hanging out is what kids do and I'm glad we got to be teenagers together even for the short time we did. For that little while everything seemed so right as it did during all the times in this beautiful life we've shared together, that we're still sharing together. Romantics - I think that's what all lovers do and we do it so well. I always made you feel safe know that I've always felt safe in your arms with you holding my heart as I do at this moment. Yes my love we are lucky to still have one another after all the curves and broken doors. - true love

I'll Love You Always
Forever & Ever
Your Steve
